BALLOONS OVER BURMA

From the 900s to the 1200s, the Pagan Empire built over 10,000 Buddhist temples. 2,200 remain on the plains of Pagan today, one of the world's most wondrous sights – especially if you see them from above in a hot air balloon. It is truly astounding how much there is to explore and experience in Burma. We'll be there once more for it all next February. I hope you will be one of your fellow TTPers to join us.
