HALF-FULL REPORT 08/24/17

I'm exercising all my will power to stay calm and not hyperventilate – and I hope you will do the same. I'm up at dawn since writing the HFR is an all-day marathon, checking the British papers as it's still too early for those in the US.

London being five hours ahead of New York, much of the US Lying Swine media get their clues on what to morning-headline from their Limey Lying Swine counterparts. You need to brace yourself for this. *It's not satire*. This is the actual "news" headline in the London Independent this morning:

Reading the story (linked above) will make you nauseous. The claim is based on "research" by a Soros-funded claque of Deep State Obamunist and Trump Hating Scum calling itself *The Alliance for Securing Democracy*. Here is its Advisory Council.

Among them are John Podesta and Bill Kristol. Podesta is the inventor of the Russia Hoax as you know, while Bill continues to allow his inferiority complex regarding his father Irving Kristol (whom I knew as an intellectual giant with his son an intellectual pygmy) to destroy his character.

Watch how the incredible lies, distortions, and defense of the illegal alien monster who stabbed Mollie Tibbetts to death propagates through the US media now.

****

And sure enough – what do we find on the front page of the New York Times this morning? How Politics Took Over the Killing of Mollie Tibbetts. The Slimes is a bit more subtle than the Independent's blaring out its bias in a headline, merely snidely inserting the same claim in this mid-story paragraph:

> *"The news of the break in the Tibbetts case on Monday was a tragic ending to her disappearance a month ago. But the timing, as far as Mr. Trump and his allies were concerned, could not have been better. Word that an immigrant had been charged in her death came the same afternoon that Mr. Trump's longtime lawyer and fixer implicated him in a scheme to pay off alleged paramours and his former campaign manager was found guilty of eight counts of financial fraud."*

The Slimes' bias is far more overt in another front page story this morning: Trump's South Africa Tweet Seems to Embrace Racist Narrative on Land Dispute. The POTUS tweet in question:

The Slimes' did not in the slightest attempt to hide its anti-white racism in response.

> *"[The President] embraced a common talking point among white supremacists who claim white genocide is being perpetrated in South Africa and around the world…*

> *Mr. Trump's seeming endorsement of that narrative drew rebukes and jubilation on Thursday. Anti-hate organizations called his tweet racist and irresponsible, while the alt-right and white supremacists said it was an overdue and courageous recognition by the president of what they called a grave injustice."*

Wow – how overt do you want? Those who want white genocide are *anti-hate* while those who don't are *racist white supremacists*. This by America's most well-known newspaper owned and operated by whites – the NYT's Board of Directors is exclusively white with the single exception of Joichi Ito from Japan.

The New York Times, along with the entire Democrat Party and American Left, don't care about

Mollie Tibbetts *because she is white*, just as they don't care about people tyrannized and murdered in Africa *because they are white*.

This should be an extraordinary teachable moment for all Americans. Teachable for what? *It explains why Trump Derangement is causing the Death Wish of the Democrat Party.* Here is the explanation in a nutshell.

If you put these two words, "envy" and "masochism" in the TTP Search box in the top right corner, you will see I have been writing about the connection for many years. One example of several is, *" Why Liberals Are Incapable of Defending America"* from October 2005.

> *"All three of the great barbarisms of modern times have been pathologies of envy. Nazism, preaching race-envy toward "rich exploitative Jews"; Communism preaching class-envy toward "rich exploitative capitalists"; Jihadism preaching culture-envy toward "rich exploitative America/Israel/the West." In all three cases, the belief in exploitation is a primitive belief in voodoo Black Magic.*
>
> *What gives envy its enormous destructive capacity is the fear of it, fear of the Evil Eye. It is envy that makes a Nazi, a Communist, or a Moslem Terrorist. It is the fear of being envied that makes a Liberal."*

It is the fear of being envied that causes the liberal compulsion to apologize for America's prosperity to appease those envious of it. Thus, *Liberalism is not a political ideology or set of beliefs. It is an envy-deflection device, a psychological strategy to avoid being envied. Liberalism is the politicalization of envy-appeasement.*

The teachable moment starts with understanding this:

> *"One definitive characteristic of both envy and the fear of it is masochism. Envy is not simply hatred of someone for having something you don't — it is the willingness to masochistically hurt or deprive yourself as long as the person you are envious of is also hurt or deprived. An ultimate example is the Palestinian suicide-bomber.*
>
> *Similarly, the more one fears being envied, the more one is driven to masochistic self-humiliation in attempts at envy appeasement. All the passions of the Left are frenzies of masochism.*

> *White male liberals become auto-sexist, sexist toward their own sex. White liberals become auto-racist: racist toward their own race (such as white writer Susan Sontag who denounced her own race as "the cancer of human history").*
>
> *So the white male liberal says his gender, his race, his country, his civilization and even his entire species is ugly."*

This is the source of the Left's Trump Derangement Syndrome. Trump is the man with no fear of envy, and as the President threatens to collapse the entire psychological construct around which lefties give meaning to their lives.

Trump, either by intuition or conscious design is weaponizing the Left's masochism, stoking Trump Derangement to the point where Democrats have become the Left's Palestinian suicide bombers willing to blow themselves and their party up in an attempt to destroy the country they hate.

Yes, this is a very teachable moment.

And if you want to understand what's happening in South Africa watch – after reading the HFR! – Lauren Southern's just-released extraordinary hour-long documentary, *Farmlands*:

You won't get better proof of Dem masochism than Jack Kelly's keen observation yesterday (8/23) that The Dems Have Shot Their Bolt, than the Libtard Media – CNN and MSNBC together – used the word "impeachment" 222 times in one day, Wednesday (8/22).

Kelly would call this Peak Hysteria. Other examples abound, such as embracing Open Borders, abolishment of ICE, Antifa fascist violence, and illegals over citizens, that the Dems have gone beyond delusional and have become politically suicidal.

Can't resist the Associated Press' desperation story this morning as another example: **"**AP: National Enquirer Hid Damaging Trump Stories In a Safe."

Please don't be drinking anything when you read it, and discover that of course the sources are anonymous, and second, the documents were removed from the safe almost two years ago and no one including the sources knows what happened to them. (Also – paper documents? Not thumb

drives, computer disks? Come on, AP, is TDS making you that stupid?)

By the way, when you see on Wednesday (8/22) that Deep Blue Oregon may deep six its deep libtard governor, you see the Blue Wave becoming a receding tide.

Time to dispense with the latest Libtard Media premature ejaculation that "We've got Trump this time!" Remember last November the huge scandal of Congress having a secret taxpayer-paid slush fund to pay off women sexually harassed by Conngresscritters? Sure you do.

Do you remember the subsequent media frenzy calling for the prosecution of the dozens of politicians of both parties for making unreported illegal campaign contributions via the slush fund? Neither do I, because there were no such calls.

There should have been, because while it's fully legal for a candidate to spend an unlimited amount of their *own* money on their campaign, it is not for *other* people's money (like taxpayers). So even if the money Trump spent was a "campaign contribution" it was legal.

But as Mark Penn – Clinton's White House Advisor during his impeachment in 1998 – explains in "Cohen Plea Deal Just Attempt to Set Up Trump" (8/22), "*Money paid to people who come out of the woodwork and shake down people under threat of revealing bad sexual stories are not legitimate campaign expenditures. They are personal expenditures*."

In any regard, as Selena Zito, author of the marvelous book, The Great Revolt: Inside the Populist Coalition Reshaping American Politics (and has a more jaundiced view of Trump than mine) writes in the NY Post: Why Trump's supporters won't care about Cohen and Manafort's convictions (8/22).

Once again, Mueller, the media and the Dems have a Nothingburger. So sad.

FYI, DC Whispers has this take: How The Clintons Directed Michael Cohen To Plead Guilty & Implicate President Trump.

And speaking of campaign violations, this from the NY Post last June: Democratic parties accused

of funneling $84M into Clinton campaign.

While Ann Coulter on Wednesday (8/22) reminds us that the entire Russia Collusion Hoax was the total invention of "The Pantsuit That Cried Wolf."

Thus the real "bombshell" of the week is Zero Hedge's reporting of Julian Assange's mother exposing Seth Rich as the real hacker of the DNC emails, not the Russians (8/21).

The DNC emails (mostly Podesta's) were leaked to Julian Assange's Wikileaks. Since Assange has never identified the leaker, Hillary and Podesta invented the Russia myth, knowing the media would buy it as the way to delegitimize Trump's election and excuse her defeat.

How about this for the Mother of All October Surprises? Assange is given asylum by the POTUS and immunity from prosecution for testifying to Congress under oath. Under diplomatic protection of the US, he cannot be arrested by the British police, leaves the Ecuador Embassy where he has been since 2012, flies to Washington, where he testifies under oath that the DNC email hacker/leaker was in fact Seth Rich.

Poof! Mueller's Witch Hunt is over and the Democrat Party implodes.

Which brings us to Sleepy Jeff Sessions.

Trump has often admitted that appointing Sessions as Attorney General was his biggest mistake, but the real mistake was Rudy Giuliani's. Rudy was Trump's first AG choice but in a pique of hubris turned it down, telling the president-elect "You owe me" and demanded he be Secretary of State.

Trump quickly disabused Rudy of his foolishness and showed Rudy the door to his suite in Trump Tower. And that's how we got Jeff.

The end for Jeff took place yesterday (8/23). Early that morning, Fox aired the POTUS interview with Ainsley Earhardt during which he denounced Sessions in no uncertain terms – with Sessions angrily firing back he wouldn't be "improperly influenced" by politics.

All my friends in DC who know Sessions well tell me he's really not bright, so he had no idea he had stepped right into Trump's trap which quickly shut:

Donald J. Trump @realDonaldTrump · 8h
"Department of Justice will not be improperly influenced by political considerations." Jeff, this is GREAT, what everyone wants, so look into all of the corruption on the "other side" including deleted Emails, Comey lies & leaks, Mueller conflicts, McCabe, Strzok, Page, Ohr.....

Donald J. Trump @realDonaldTrump · 8h
....FISA abuse, Christopher Steele & his phony and corrupt Dossier, the Clinton Foundation, illegal surveillance of Trump Campaign, Russian collusion by Dems - and so much more. Open up the papers & documents without redaction? Come on Jeff, you can do it, the country is waiting!

The timing was perfect, because a horde of Pub Senators, DOJ/FBI old timers had their final straw with Sessions on Tuesday (8/21) with this: DOJ Declines to Prosecute FBI Agent IG Says Received Money from Former Source, Protected Source's Illegal Business, Provided False Info to Police, and Misused FBI Assets for Personal Gain.

That, plus guys like Lindsay Graham (R-SC) have been demanding for some time that Sessions appoint a second Special Prosecutor to investigate Russia-*Clinton* Collusion in the 2016 election – and Chuck Grassley (R-IA) infuriated at DOJ refusal to send documents.

The result, as reported by ace reporter and my friend Sara Carter yesterday evening (8/23): Time for Sessions to Leave DOJ, Senior Senate Leaders Say – "*Several key Republican Senators announced Thursday that they would support the President if he chooses to replace Sessions.*"

Will Sleepy Jeff get "woke" and do as Trump says to save his AG hide? Or will he resign before POTUS can fire him? Buy more popcorn, enjoy the show.

Let's take a moment to put something revolting in historical context.

On Saturday (8/18), Bishop Robert Morlino wrote a letter addressed to his flock of the Diocese of Madison Wisconsin, published in the Catholic Herald:

> *"It is time to admit that there is a homosexual subculture within the hierarchy of the Catholic Church that is wreaking great devastation in the vineyard of the Lord."*

Bishop Morlino denounced the current scandal in Pennsylvania: 900-Page Grand Jury reveals the depravity of 301 priests who sexually assaulted thousands of children – mostly boys - which the Catholic church covered up (8/14). The report notes this has been going on for 70 years.

The horrific truth is that this has been going on for thousands of years. The Ancient Greeks would instantly recognize the Catholic Church has a Fatal Flaw which ultimately brings doom to an epic hero.

The Catholic Church has played a heroic role in the creation of Western Civilization for the last two thousand years. Yet its fatal flaw has been there from the inception.

You've been hearing about the Catholic scandals of priestly pederasty for years. But have you heard about all the scandals of Protestant ministers or Jewish rabbis preying upon young boys? Neither have I – because there aren't any.

These pederastic scandals are found among Catholic clerics because of the *idiocy of celibacy* imposed on them. They can't marry and have sex and children like any normal man including ministers and rabbis.

This fundamental denial of a man's human nature has been causing the same kind of sickening abuse you hear about in Pennsylvania *for century after century after century for two millennia*. It's time for it to end, which means the papacy to admit both the existence of its Fatal Flaw and its cause. Which in turn means the end of the idiocy of celibacy, allowing priests (and nuns too) to marry, have sex, have children, raise a family.

Or else, the Catholic Fatal Flaw will prove, as the Ancient Greeks would tell you, fatal. That's not something we should wish upon Western Civilization.

We've gone too long so that's a wrap. We've only got a week of summer to go so make the most of it. Meanwhile, take solace in that "Workers Are About to Take Home Their Biggest Paychecks in Years" (8/18). They'll be primed to vote right in November!

Just announced this afternoon (8/23): Republican Troy Balderson Wins Ohio Special House Election.

Also today:

There's lot more solace where that comes from. Blue Wave? Blue Death Knell is more like it. Here's how lefties can get relief:
