HALF-FULL REPORT 11/23/18

Welcome to the Thanksgiving HFR! I hope you had a marvelous time last night, ate too much turkey and trimmings, drank too much wine or whiskey, expressed an overabundance of gratitude to Providence, and if there was some Libtard relative at the table determined to ruin things, everyone laughed at him.

As Mae West was fond of saying, “Too much of a good thing can be wonderful!” And as Mark Twain observed, “Too much of something can be bad, but too much whiskey is just enough.”

There are too many blessings in my life to count that I’m grateful and thankful for, chief among them my wife and our two sons. And right up there is our TTP community. I so deeply appreciate all the kind comments TTPers sent me on the Forum, phone or email regarding *The Lesson of Thanksgiving* yesterday (11/22). Thank you all.

Today (11/23) is called Black Friday, the biggest shopping day of the year that hopefully denotes

retailers will be “in the black” for the year (making a profit which bookkeepers recorded in black ink, with losses in red ink).

Thanks to President Trump’s economic policies, America has been in the black this year – at least until the election. This was the huge banner headline on Drudge on November 2:

So – how is it possible for Dems to gain 38 House seats with this? Only two ways – either they cheated or voters are masochistic. While the latter certainly played a role, Dem cheating was massive.

In state after state, from Arizona, Nevada, Utah, and New Mexico to Wisconsin, Georgia, and Florida, in district after district with a GOP candidate leading at the end of vote counts on Election Day, suddenly thousands of “uncounted” ballots magically appear that *always* are 90% Dem and flip the race.

The most glaringly fraudulent was in California’s Orange County. As shown by GP’s Jim Hoft, Pub candidate for governor, John Cox – virtually unknown with an almost invisible campaign – won Orange County (497K-R/487K-D), yet ticket-splitting Pubs voted for the radical Dem instead, giving all six OC seats away? How did Dems get 300K more votes for congressional seats in OC than for governor? As Jim says, “this screams voter fraud.”

Blogger Bill Mitchell:

The question is: what is the Trump DOJ going to do about it? So far, the answer is: Nothing.

****

The mortal problem: the massive Dem voter fraud of 2018 is simply *a trial run for 2020*, for which Dems plan voter fraud on such a scale that democracy in America will be wiped out. Democrats only pretend to be small-d democrats. What they've become is unvarnished Fascists.

We need to stop calling them Democrats. We need to call them in every way and venue possible *Fascicrats*, and their party the *Fascicrat Party*.

For the very same reason, we need to put aside all the other terms referring to the CNN-NYT-WaPo-CBS-NBC-MSNBC-ABC "mainstream" media conglomerate (like Enemedia, Fake News Media. Lying Swine, etc.), and make it clear what they are and what the advocate: The *Fascist Media*.

Nothing will trigger Dems, leftie journos, and lefties in general than being called *Fascists* over and over and over again everywhere.

That said, let's repeat the call to arms in last week's HFR: *"Nothing could be more important than Election Reform with Election Day Photo Voter ID Only as the goal. That means no early voting, no mail-in voting, no provisional ballots, no election-day voter registration."*

Except I made a mistake. I added, "You'd keep absentee voting but that's all." My bad, as quickly pointed out by TTPer Doug Kemp on the Forum:

> *"Jack! Nothing provides more opportunity for vote fraud than absentee ballots. NOTHING!! Consider just a couple of scenarios:*
>
> *1) Postal workers intercept the ballots, mark them for the Dems, and return them. Signatures don't match? Meh, who cares? Enough will get through the minimal screening to count.*
>
> *2) Nursing homes. Oh, joy, an absolute treasure trove of old, infirm, likely dementia-afflicted people who just really, really need our help in filling out these ballots, don't you know.*
>
> *3) How many relatively wealthy Dems from the northeast spend their winters in Florida? And how many of those receive (and return) an absentee ballot from NY and also vote in person in FL? Thousands? Or tens of thousands? And I see no reason why not – after all, the states don't talk to each other about who is and isn't eligible. And so on…*
>
> *A special ballot system for diplomatic and military personnel posted away from their homes (strictly controlled – none of this mailed out and back BS) is possible (like it's done in Canada), but as for the rest – abolish it."*

Point taken, Doug, thanks. And we need an additional requirement: *Proof of US Citizenship*. The Federal Photo Voter ID card must include that. In California, for example, you register to vote when you get a driver's license. Illegal aliens by the millions vote now in California.

Note for advocates of federalism and 10th Amendment state's rights: US Citizen Photo Voter ID applies to *federal* elections (i.e., Congress and President). States are still free to have their own voting procedures for elections within their jurisdiction.

But under the presidential designation (by Obama) of *election systems as "critical infrastructure" for US national security*, President Trump may mandate Election Day Only Voting with US Citizen

Photo Voter ID (diplomat/military absentee ballots the only exception) to be in effect and applied to federal elections in 2020.

We need an organized and unified movement to pressure and support the POTUS in doing this. Any takers out there to put it together?

****

Which brings us to:

Obviously, Voter Fraud and Illegal Immigration are connected as teeth and lips. Other forms of Dem Fascicrat voter fraud like voting from the grave and vote-early-vote often are molehills to the mountain of non-citizen illegals voting in the millions.

Which is why the photo above is important – just as is [POTUS authorizing the use of lethal force by US military troops to prevent illegal entry into the US](#).

Trump's spine has given backbone to the people of Tijuana, who are sick and tired of people

invading their country. Here's Tijuana Mayor Juan Gastelum at a protest of his constituents against the invaders sporting his version of the MAGA hat:

Here are the Mexican citizens of Tijuana saying *"Donald Trump is right, this is an invasion. Get out, go back to where you came from,"* and chanting, *"Get out Hondureños, we don't want you here!"* (people from Honduras). Wow…

While this is happening, along comes a depraved Obama judge on Monday (11/19) who thinks he can block Trump's asylum ban. When POTUS denounced the ruling as a "disgrace" by an "Obama judge", an astounding thing happened.

Supreme Court Chief Justice John Roberts took it upon himself to publicly criticize the President of the United States, claiming there are no such thing as "Obama judges," claiming instead there are only "dedicated judges doing their level best to do equal right to those appearing before them."

Big mistake, John.

Senate Judiciary Chairman Chuck Grassley was quick to point out:

Chief Justice Roberts rebuked Trump for a comment he made abt judge's decision on asylum I don't recall the Chief attacking Obama when that Prez rebuked Alito during a State of the Union

3:07 PM - 21 Nov 2018

While POTUS fired back:

.....are so many opposing view (on Border and Safety) cases filed there, and why are a vast number of those cases overturned. Please study the numbers, they are shocking. We need protection and security - these rulings are making our country unsafe! Very dangerous and unwise!

Sorry Chief Justice John Roberts, but you do indeed have "Obama judges," and they have a much different point of view than the people who are charged with the safety of our country. It would be great if the 9th Circuit was indeed an "independent judiciary," but if it is why.....

....and Safety at the Border, or anywhere else. They know nothing about it and are making our Country unsafe. Our great Law Enforcement professionals MUST BE ALLOWED TO DO THEIR JOB! If not there will be only bedlam, chaos, injury and death. We want the Constitution as written!

Justice Roberts can say what he wants, but the 9th Circuit is a complete & total disaster. It is out of control, has a horrible reputation, is overturned more than any Circuit in the Country, 79%, & is used to get an almost guaranteed result. Judges must not Legislate Security...

But it's not just the President taking the Chief Justice to the woodshed. Here's the enormity of Roberts' mistake.

Google "Justice John Roberts blackmailed" and you'll get 310,000 hits. Just one example: Obama CIA Accused of Blackmailing Justice Roberts for Illegally Adopting His Sons to Secure His Vote for Obamacare.

Now that forgotten can of worms has been opened. Should have kept your mouth shut, John.

And a lot of good it did you to open it. Yesterday (11/22), POTUS circumvented the Obama judge's ruling: Trump's New "Remain In Mexico" Policy Will Force Migrants To Wait In Mexico While Awaiting Asylum. Hahaha.

****

Believe it or not, the Obama judge's ruling attempting to block the asylum-for-illegals ban was not the most depraved of the week. That would be a fed judge in Chicago ruling the US law banning female genital mutilation (FGM, the castration of a young girl's clitoris practiced by Moslems to prevent her from sexual enjoyment) is unconstitutional. Sharia Law takes precedence over US law.

****

But wait – there's more krytocratic depravity! Tuesday (11/20) headline: Judge Strikes Down Mississippi's 15-Week Abortion Ban.

This under a demented interpretation of the 14th Amendment – which according to this judge somehow doesn't apply to human beings not yet born, and thanks to him never will be. This is *krytocracy* in perverted action, tyrannical rule by unelected judges.

Break time.

In the "Can't Make It Up Department" this week (11/19), we get further proof Libtards really are psycho:

And this news flash direct from Karma City (11/19): Stormy Daniels Says Donald Trump and Politics 'Completely Destroyed' Her Career. Sorry, Stormy, you did it all by yourself..

****

Question of the Week: What's with the constant media adulation coverage of this brainless bug-eyed broad Occasional-Cortex?

Headline (11/18): Ocasio-Cortez Has No Idea What The 3 Branches Of Government Are.

****

Time for *Winning!*

POTUS tweeted this morning (11/23):

This is the *First Step Act*, HR5682, Trump's effort to reform Clinton's Three Strikes Rule. This is a big deal. It's the moral thing to do, liberating people from years in jail for a nickel bag of grass and such – and will be of enormous political benefit to Trump & the GOP among the black vote in 2020.

The cosmic irony here is proof in the House vote for HR5682 that leaders of the Congressional Black Caucus want to keep blacks on the Fascicrat Plantation: All of them voted against the bill – Mad Maxine, John Lewis, Elijah Cummings, et al, the whole stinking lot of hypocrites. Wish there were a way to force them never to mention the word "racism" ever again in criticizing the GOP.

Winning! International. The most dangerous and militarized border on the planet is the DMZ between North and South Korea. On Wednesday (11/21), South Korea released video of North Korea blowing up 10 of their DMZ guard posts.

Here is a photo taken yesterday (11/22) of a South (R) and North (L) military officer shaking hands

during the reconnection of a road through the DMZ. This photo would have been thought impossible before Trump:

Peace made possible by POTUS Donald Trump. Truly extraordinary.

****

And more *Winning!* Heard of the UN Global Compact for Migration that wants to force countries around the world to open their border to illegal aliens? One of its architects is a guilt-ridden white auto-racist Norwegian diplomat Jan Egeland, who tweeted this idiocy:

Sorry, Jan. On Wednesday (11/21), The Polish Government Officially Announces that It Won't

Sign the UN Global Compact for Migration. In doing so, Poland joins the US, Czech Republic, Hungary, Bulgaria, Estonia, Austria, Australia and Israel, with more to come So much for Trump being isolated.

Here's a short video showing why Poland flipped Jan off – by comparing subway metros in Berlin, London, Paris… and Warsaw. No other explanation needed.

****

But here's the best *Winning!* of the week. Read and revel in this from Bloomberg (11/21): *Texas Is About to Create OPEC's Worst Nightmare*. A true must-read/

This while President Trump is Former President Zero's worst nightmare in ridiculing his Warmist religion that includes fanatical hatred for fossil fuels:

We'll close with this. There's a guy named Fred Reed who pontificates on everything as if he knows it. He just spent two weeks in China making him an instant expert explaining how the Chicoms do everything better than Americans. He was particularly impressed with this (posted 11/20):

Bicycle deposits like this one are everywhere. Each ride has an electronic gizzwhich that lets you rent it using–what else?–WeChat. The system is not robustly communistlc: Different companies paint their bikes in different colors, and have sales to compete. Phredfoto.

Fred needs to see this, for here's the reality: *China's Incredible Bike Share Disaster.*

Have a great Thanksgiving weekend – and be sure to be thankful for our winning under POTUS Trump…
