Death Blossom.
Q

”Death blossom.”

Back in 1991, U.S. soldiers in Operation Desert Storm coined that evocative trope to describe how Iraqi soldiers – panicked at the first sound of gunfire – would shoot wildly in all directions.

Thanks to Q, millions of civilians now know what a “death blossom” is.

Q used “death blossom” to describe Democrats – panicked because Special Counsel Robert Mueller found no evidence of Trump “collusion” with Russia -- who fire off wild accusations of obstruction, money laundering, mob connections.

Since he began posting on 4chan and 8chan -- https://qanon.pub/ -- in November 2017, the letter Q has become as popular a symbol of resistance to a corrupt elite as was Zorro’s Z in the Disney television series.

He speaks for military intelligence professionals who are helping President Trump drain the swamp, Q implies. His *nom de cyber* refers to a security clearance above top secret.

Q is a hoax, a LARP (live action role play), a conspiracy theory, say leftists – and many conservatives.

Q knows things you’d think only an insider would know. If he were close to the president, that would make sense. If he’s a hoaxster who isn’t, that’s *remarkable*.

Q gives good advice. He uses the Socratic method (asking questions) to encourage those who follow him to think for themselves, advises them to do their own research.

Q promotes unity. Our enemies seek to divide us by race, gender, religion, sexual preference, socio-economic status, because when “patriots” are divided, we are easier to bamboozle, and to

control.

Though the mystery surrounding him certainly helps, I think the Q phenomenon has spread so far so fast chiefly because of the confidence he imparts.

President Trump (and his MI allies) have a plan to drain the swamp, to expose, and then to punish, evildoers, Q says. It's working. *Trust the Plan*, he urges.

Leftists say Q is a prankster, who – to humiliate and demoralize gullible wingnuts -- at the right time will out himself.

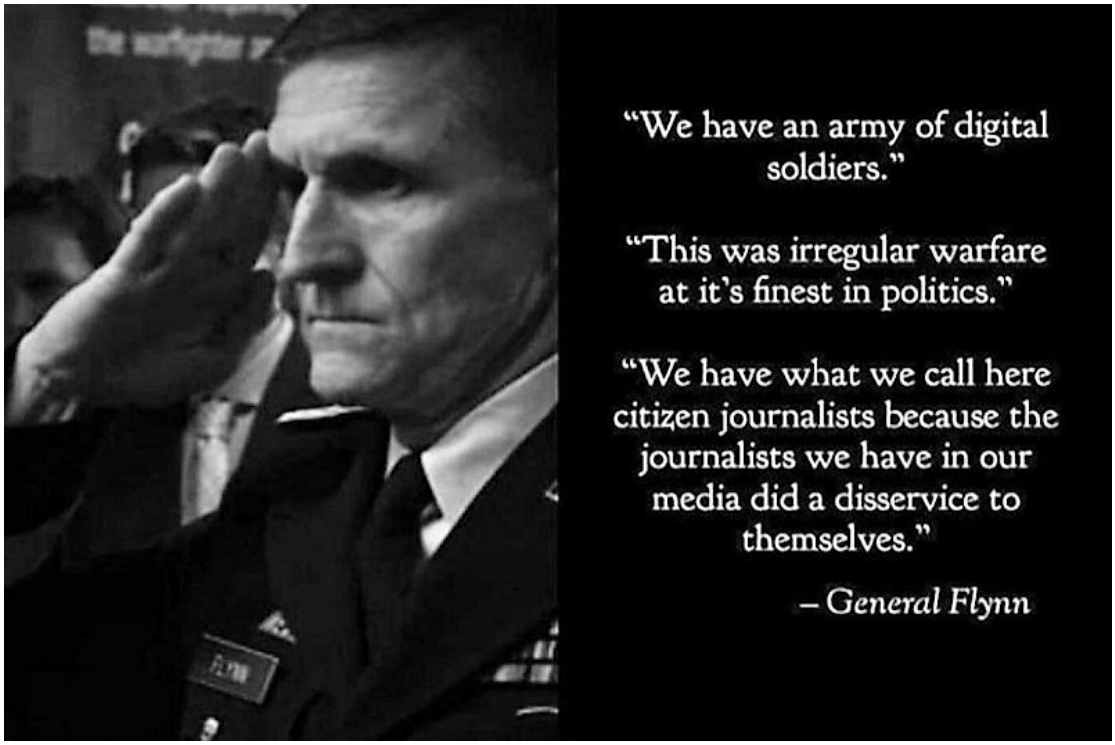
Their behavior indicates leftists don't believe what they say. If they really think Q intends to turn on his followers, they wouldn't try so hard to suppress his message .

Praying Medic and Lisa Mei Crowley ask leftie journos: *If you think Q is a hoax, why don't you ask President Trump about him?*

No MSM journalist has. Could they be afraid of what he might say?

Though some skepticism is prudent – we should have blind faith only in the Almighty – I'm 99.9 percent convinced Q is the real deal.

In this speech two months before Q began posting, LtGen. Michael Flynn foreshadowed Q's theme of creating *an army of digital soldiers*.



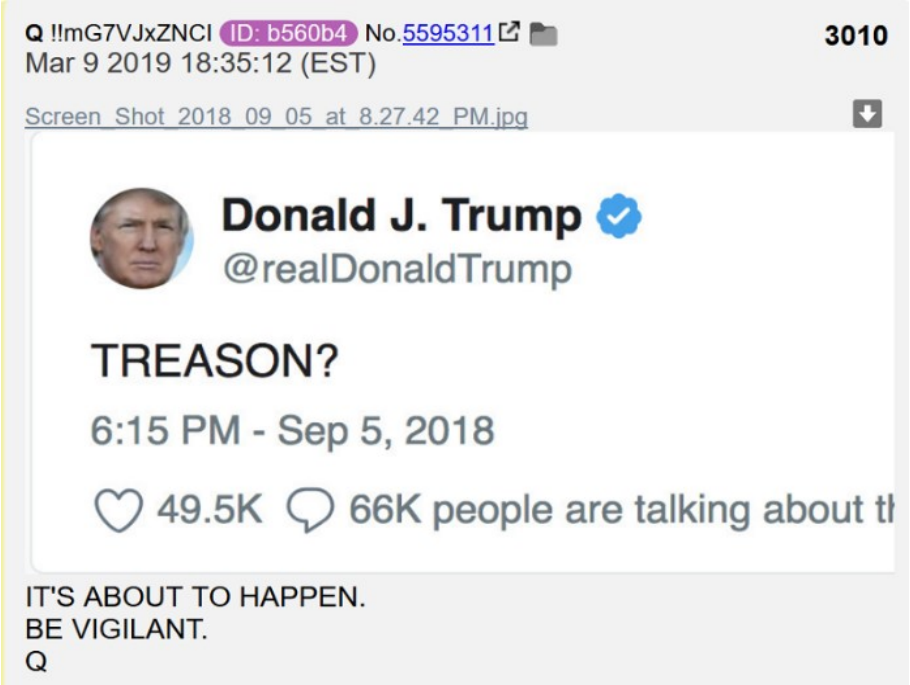
At a book signing in St. Louis in September 2018, Flynn wrote after his signature "Where We Go One, We Go All." Q signs off most of his posts with the acronym "WWG1WGA."

Last week Flynn changed the backdrop of his Twitter page to one that shows sunshine breaking through clouds. "From darkness to light" is a frequent Q theme.

In this fascinating video posted on YouTube March 3, Gen. Robert Brown, commander of U.S. Army Forces Pacific, talks about the six dimensions of modern warfare, the sixth being the human dimension, fought (mostly) on social media. (The video is 28 minutes, with Gen. Brown's discussion of the six dimension starts 13 min. in. The entire video is worth watching.)

Gen. Brown "*seems to be speaking about Q in a very round about way*," Dilley thinks. What do you think?

Phase II of The Plan – exposure of the evildoers – begins in earnest this week, Q said Saturday (3/09).



By coincidence (or not) leftist groups learned Saturday investigations of the Clinton Foundation and Uranium One began Nov. 22, 2017.

A month later, Attorney General Jeff Sessions ordered an investigation into why the Obama administration shut down Project Cassandra, a DEA investigation of drug smuggling and money laundering by Hezbollah, a Lebanon based militia allied with Iran.

Nader Mohamed Farhat, the foremost financier of Hezbollah, will be extradited to the United States, we learned Sunday (3/10).

U.S. Attorney John Huber, who oversees the 470 attorneys conducting those investigations, met with Attorney General William Barr last Friday (3/8). Here's what he said afterwards:

> "*We will move forward with his priorities, hold offenders accountable, and advance the rule of law*."

As more of The Plan is revealed, I'm awed by how brilliant, and how thorough, it is.

The Swamp isn't just in Washington D.C. It's global.

Follow the money. You may have noticed there's an international crackdown on money laundering. No more slaps on the wrist for big banks. They face financial ruin if they don't disclose for whom they laundered money.

Remember how the feds got Al Capone. The Clinton crime family is all about greed. If you can prove how they got paid, and by whom, you can nail them.

Following the money is the best way to find out if Obamunists got kickbacks from the billions in cash they sent to Iran, which politicians get payoffs from Mexican drug cartels.

Because our enemies control the news media, have factotums larded throughout the federal government, it was vital to keep investigations secret until it was time to strike.

Enter Special Counsel Bob Mueller and his “Thirteen Angry Democrats.” Besides taking the collusion investigation away from the dirty hands of Andrew McCabe, Mueller’s probe gave leftists a shiny object to chase while Huber and his 470 investigators worked unnoticed in the shadows.

The day before his appointment, Mueller had a long private meeting with President Trump, ostensibly to discuss the then vacant post of FBI director.

Not a single MSM journalist wondered why Mueller allegedly was interviewing for a job he could not legally accept.

Democrats and the media face “a reckoning” if Mueller finds no collusion with Russia, ABC News correspondent Terry Moran said Sunday (3/10).

Look at the expression on the face of Martha Raddatz as Moran crushes her collusion hopes.

It's no big deal that after poking into every nook and cranny for nearly two years, Mueller came up with bupkis, most in the Enemedia will say. They will try to move on to whatever outrageous and evidence-free charges Schiffless and Fats Nadler make next.

Brian Cates explains here why that won't fly, why President Trump had to wait until the Mueller probe ended before launching his counter attack.

Which will be glorious. "*Let your plans be dark and impenetrable as night, and when you move, fall like a thunderbolt*," said Sun Tzu.

Expect Sun Tzu's most avid pupil to hit the Dems and the Lying Swine with so much stuff at once they won't have time to figure out a way to spin it.

There'll be Hellzapoppin between now and next Tuesday (3/19), Q says.

By coincidence (or not), that happens to be the day documents concerning an international sex trafficking operation run by Jeffrey Epstein will be made public, a U.S. Court of Appeals ruled Monday (3/11).

You may have only a day or two – maybe just hours -- to stock up on popcorn before the fireworks begin.
