HALF-FULL REPORT 04/12/19

What's that deafening sound? Wow it's loud, like squeals from an entire sounder of stuck pigs. Oh, look! It's the Democrats and their media lap poodles squealing in terror over Bill Barr about to slit their throats.

The AG's Senate testimony on Wednesday (4/10) did it. TTP attached the video of his words to Kim Strassel's *Barr Brings Accountability* this morning (4/12).

Yes, Roger Simon is right, that POTUS' replacement of testicularly-atrophied Jeff Sessions is *The Democrats' Worst Nightmare*.

When you watch the video in Strassel's, note carefully Barr's words after he says "I think spying on a political campaign is a big deal." He then says, "I'm not talking about the FBI necessarily but intelligence agencies more broadly."

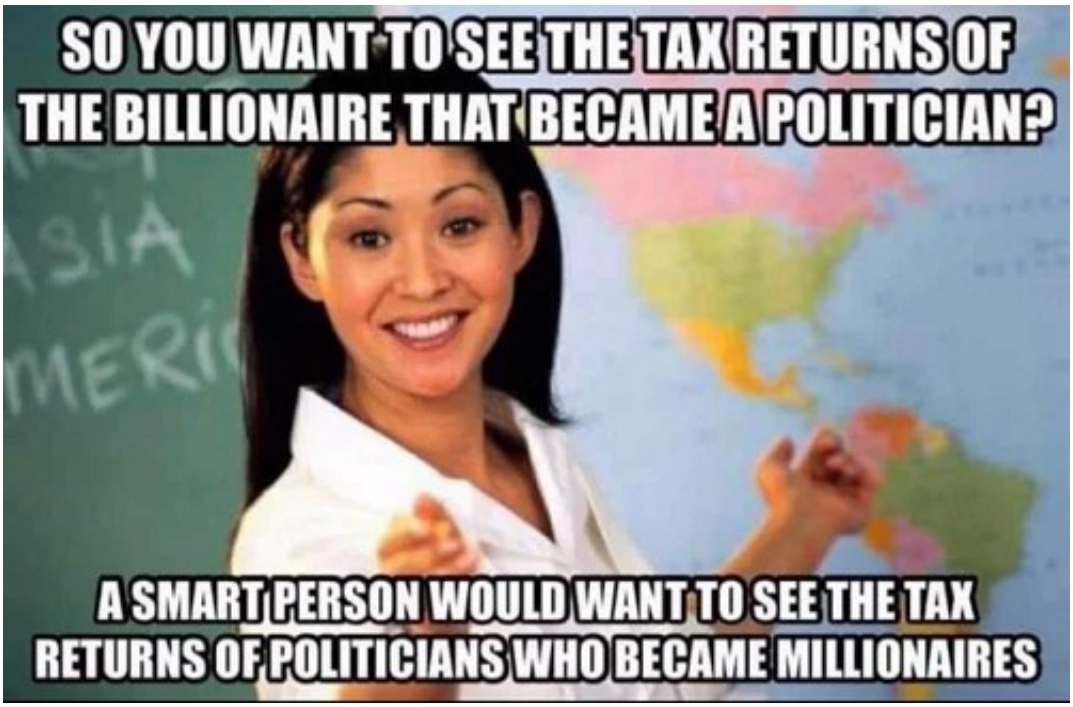
You can bet all three of Obama's intelligence directors – not just FBI's Comey, but CIA's Brennan and National Intelligence Director Clapper – hearing those words suddenly noticed the red laser light dot over their hearts and said to themselves, "OMG, he's targeting *me!*" You betcha.

****

On Wednesday (4/10), Pelosi Galore squeaked "Barr is going off the rails." Then within 24 hours

on Thursday (4/11), Barr claimed his first scalp, indicting Obama White House Counsel Greg Craig . It was for lying regarding his work in Ukraine with Paul Manafort and Tony Podesta (John's brother).

You can bet that sobered Speaker Senility up fast. More scalps to come, Nancy. Oh, by the way, better never ask for POTUS' tax returns ever again.



****

Which brings us to Julian Assange.

Assange is a hero to some, a demon to others, and we won't get into that. What we need to focus on is the timing of his arrest yesterday (4/11), after seven years of asylum in Ecuador's embassy in London. British police reported his arrest was "on behalf of the United States," meaning the DOJ indictment and request for his extradition.

Is it just a sheer coincidence that, after seven years, this happened within 24 hours of Barr's explosive testimony? For anyone who believes that, I'm inclined to offer them a great deal on a bridge across the East River.

Recall that the entire "Trump-Russia Collusion" myth originated with Wikileaks publishing emails from Democrat National Committee computers, and those of Clinton campaign chief John Podesta in particular during the 2016 presidential race.

The entire collusion hoax, the entire Mueller investigation, is based on the Dem claim that the DNC computers were hacked by Russians and given to Wikileaks in order to damage Clinton's election chances because Putin was in "collusion" with Trump to help him win.

The whole "dossier" and FISA warrants were ginned up to support this email hack and leak collusion. A massive effort of Brennan's CIA, Lynch's DOJ, and Comey's FBI – all coordinated by Clapper's National Intelligence, was megaphoned by the media saying the evidence was "conclusive" that the DNC emails were hacked over the internet by "the Russians."

Except that there is no evidence for this whatever, and all those Obama intel folks made every effort not to look for it. None of them ever examined the DNC computers, and neither did Mueller.

On the contrary, the real physical evidence, the time stamps of the email downloads, show the emails could not have been "hacked" over the internet but were copied onto a thumb drive inserted directly into the DNC computers. That is, it was an inside job.

See for example, Why the DNC Was Not Hacked by the Russians, by retired Technical Director of the NSA William Binney and former CIA analyst Larry Johnson.

Okay – but all of this ridiculous media hysteria and deep state treason attempting a coup against the elected President of the United States could have been knee-capped right at the outset if Assange had disclosed the source of the DNC emails Wikileaks published.

He refuses to so to this day. With his extradition and interrogation at Barr's direction, that refusal may soon come to an end.

If Assange fingers DNC computer techie Seth Rich – known to hate Hillary and Podesta for rigging the Dem primaries against his hero Bernie Sanders – the biggest can of worms ever seen in DC will explode. Because Seth was murdered after Podesta found out it was him who provided the emails to Wikileaks. With Seth rubbed out, Podesta concocted the looney tunes "I was hacked by the Russians" story.

So, Julian – spill the beans. It's your Get Out of Jail card. And just imagine how much fun it will be to destroy this jerk who hates you:

Chuck Schumer @SenSchumer · 14h
Now that Julian Assange has been arrested, I hope he will soon be held to account for his meddling in our elections on behalf of Putin and the Russian government.

Speaking of treason, let's talk about…

The cover story written by the NY Post Editorial Board, Ilhan Omar's Outrageous Write-Off of 9/11's Horrors, recounts how in a speech to a Moslem group, she complained of "the discomfort of being a second-class citizen" before claiming the pro-terrorist CAIR (Council on American-Islamic Relations) "was founded after 9/11 because they recognized that some people did something, and [Moslems] were starting to lose access to our civil liberties."

Moslems were the victims of 9/11, not the perpetrators, you see. The Post notes how she complained that news reports of her "some people did something" speech were causing her to get "death threats" – and wryly comments, they weren't death threats, they were just "some words from some people."

It's high time to recognize this Pro-terrorist anti-Semitic America-hating Somali woman as evil, pure and simple. Three things to do.

First, make fun of her. Like:

Second, send a letter or email to as many members of the House Freedom Caucus as you can, politely requesting:

Dear Congressman,

On January 5, 2019, the House passed "The Rules for the 116th Congress." On Page 5, a 181-year ban on wearing hats in the House Chamber was lifted specifically to allow Congresswoman Ilhan Omar to wear a hijab:

> *"Religious Headdress. Subsection (x) clarifies and maintains the existing prohibition on wearing hats in the Hall of the House, while making express that this prohibition does not include religious headwear. The language for this clarification is modeled on the statutory provision providing for proper decorum during the Pledge of Allegiance, 4 U.S.C. 4."*

The obvious truth is that the House submitted to the Sharia law demanding special consideration for Muslims. Millions of Americans resent this deeply, especially now when Ms. Omar had the incredible effrontery to refer to the Islamic terrorist attack on America of 9/11 as "some people did something."

My request is that you, as a Member of Congress, declare your political religion to be the founding principles in the Declaration of Independence and the Constitution of the United States of America.

And that given this, the Rule above gives you the right to wear headwear in the House Chamber expressing this deeply held religious belief – namely a red MAGA hat declaring "Make America Great Again."

Doing so will make you a hero to millions of Americans – and expose the hypocrisy of Ms. Omar's special Sharia dispensation.

Thank you for all you do for our country as a Member of the Freedom Caucus. Respectfully… (signed)

Third, send an anonymous letter to the office of Ms. Omar warning her that you know the NSA is tracking her and her staffers' international communications to build a case that she/they have been engaging in treasonous complicity using classified data with foreign enemies of the US. Just a warning from someone trying to help, as you have heard AG Barr wants a pretext to prosecute her for treason.

Time to play a little hardball. Let's go.

Of course, the ever-obnoxious Congresscritter Alexandria Ocasio-Cowfart defended Omar in her typically despicable way. How enjoyable then to see her ridiculed by everyone, right to left, black to white, for condescendingly adopting a phony black accent talking to a black group. This is hilarious:

She's even being sent MABA hats now – Make Alexandria Bartend Again.

Today (4/12) Drudge is headlining this morning's story in the LA Times: Mayor Pete Buttigieg Is The Hottest Thing In Politics – Can It Last?

Of course it can't, just as Beto the Pendejo was last week and now he's forgotten. Yet the media ploy is obvious. Mayor Buttplug is an Obama sequel.

Zero's entire appeal was his skin color, no resumé or qualifications whatever, just vote for him or you're racist -- and Americans did to get rid of the Left's guilt-mongering of Racist America.

Same with this guy, no quals whatever, a Boy Mayor of some small town, not even a freshman Senator. Just like no one would have paid the slightest attention to Obama if he were white, no one would pay the slightest attention whatever to this nonentity if he were straight, heterosexual.

Except he's not. The Left wants to pull off same scam as with Zero, if you don't support Pete, you're homophobic.

But history doesn't repeat itself, and sure won't for this guy. First, Americans learned the hard way that thinking if they voted for the black guy, they'd never be guilt-mongered on being racist again. Massive mistake – Zero turned out to be the worst and most divisive president in US history.

Second, while most Americans do feel bad about their country's history of slavery thus providing grounds for guilt-mongering, there's no such history of guilt regarding homosexuals. Sure they were discriminated against but never *enslaved*. And such discrimination is pretty non-existent today.

So there are no grounds for the same guilt-mongering scam for the Left to pull off with this small town mayor. Especially when all he does is bash Vice President Pence's religion, and praise the climate hoax, the fascist Green New Deal, and infanticide to the moon. No sale, Pete. Go back to South Bend and try to be a decent mayor. Goodnight.

A trio of *Winning!* this week.

*Thursday 4/11: Michael Avenatti Faces 335 Years in Federal Prison. Karma for CPL, Creepy Porn Lawyer. Note the three dozen indictments are issued by the Barr DOJ.

*Thursday 4/11: Stacey Abrams Under Investigation by Georgia State Ethics Commission. More well-deserved karma.

*Friday 4/12: Transgender Military Ban to Take Effect Today. No more taxpayers paying for the mentally ill to mutilate themselves.

We close this terrific week with a POTUS masterstroke. Pelosi's hair is on fire, Dems heads exploding all over town, as he hoists them all on their petard of sanctuary cities and love of illegals. From this afternoon. Enjoy!

Donald J. Trump @realDonaldTrump · 3h

Due to the fact that Democrats are unwilling to change our very dangerous immigration laws, we are indeed, as reported, giving strong considerations to placing Illegal Immigrants in Sanctuary Cities only....

....The Radical Left always seems to have an Open Borders, Open Arms policy – so this should make them very happy!
