SAILING THE CARIBBEAN DREAM

Who hasn't dreamed of sailing in a billionaire's magnificent yacht to magic islands in the Caribbean? This January you can, at an astonishing price.

I have made arrangements with the owners of a 180-foot dream yacht to sail to a half-dozen Caribbean paradises. We get there in style with a professional crew – Skipper, first mate, mechanic, bosun, cook and 4 stewards – catering to your every need.

We stay away from crowded resorts and beaches full of giant cruise ship hordes, berthing instead at secluded bays and small fishing villages to experience true Caribbean culture.

This is the Caribbean Dream come true.

Only four couples may accompany Rebel and me. Each couple has their own en suite air-conditioned private cabin. We dive off the boat every morning to swim in clear turquoise water, snorkel with sea turtles, befriend pink flamingos in a blue lagoon. All this on a magnificent super yacht where we enjoy sumptuous dining, the bar is always open, and we have as much fun as we want.

From the best golf in the Caribbean to the best snorkeling and scuba diving in the Caribbean, from a helicopter tour of an active volcano to just floating in secluded peace on a turquoise sea, you get to choose what you want to do from an extraordinary array of memorable activities.

This is only a glimpse. All you need to get all the info and details with more photos is venture over to the TTP left side bar and click on *Sailing The Caribbean Dream*.

Remember, only four couples can join Rebel and me to live this dream. *Carpe diem!*

If not now, when? Life is short. The time for a great adventure is now.
