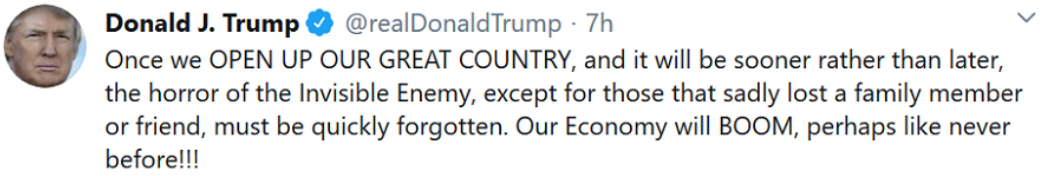
HALF-FULL REPORT 04/10/20



Welcome to the Good Friday HFR!

Although in truth there is nothing "good" about an innocent man subjected to a horrifically primitive death punishment, which this day commemorates. It is only good in an older meaning of the term, which is "holy" – so let's use that: Welcome to the Holy Friday HFR.

It is a day for somber reflection on the evil that humans are capable of inflicting upon each other. On this particular Holy Friday in 2020, we are all in the grip of a masochistic mass hysteria perpetrated upon us with malice aforethought.

We must now quickly resurrect ourselves from this hysteria before the doom is irreparable. One way to do so is to take the lessons of history to heart. The mortal danger our country is in did not pop out of nowhere. So let's review the historical highlights of the primary group of perpetrators creating this danger.

One hundred and sixty years ago, they so fervently believed in their moral right to enslave fellow human beings they plunged us into a Civil War in which over 600,000 Americans died killing each other. A mass hysteria of fully insane lethality.

In response to losing that war, they formed a Ku Klux Klan to perpetrate violence and oppression upon their former and now freed slaves. Their Jim Crow South continued that oppression, legalized by the state governments they controlled, for another hundred years.

One hundred and eight years ago, they got their presidential candidate elected who proved to be America's Worst and First Fascist President, who engineered our entry into World War I wasting 117,000 American soldiers' lives for worse than nothing, enabling him to conduct a fully fascist seizure of America's economy and society, enabled Lenin's Bolsheviks to seize Russia and create the Communist Soviet Union, and created the rationale for Hitler's Nazis to seize Germany.

Eighty-eight years ago, they got their presidential candidate elected who used the Great Depression to trash our Constitution's restrictions on federal government control over our lives, and then allowed The Communist Triumph of Pearl Harbor.

Sixty years ago, they got their presidential candidate fraudulently elected with massively stuffed

ballot boxes in Illinois and Texas.

Fifty-seven years ago, their vice-president had their president assassinated so he could be president, turned America into a giant welfare state with his “War on Poverty” excuse, and got America into a real war in Vietnam that he refused to win, thereby costing 58,318 American soldiers’ lives to lose to the Communists of North Vietnam.

Twenty-eight years ago, they got their presidential candidate elected, who, together with his wife, proved to be the most corrupt and morally debased couple ever to inhabit the White House.

Twelve years ago, they got their presidential candidate elected solely on the basis of the color of his skin, who was imbued with a deep hatred of America by his Communist mentor, and consistently was on the side of America’s enemies in any dispute.

Add to this their fanatical obsession for abortion, resulting in an American Holocaust of over 61 million babies murdered by their own mothers since 1973.

They are America’s Curse, and are proving to be more so than ever today.

****

Ereyesterday (4/08), Jack Kelly wrote, *The Enemedia Is Rooting for the Virus, Trump Is Rooting for America – Who Wins?*

The Branco cartoon at the start sums it up:

One of the clearest examples of the Enemedia and the Dems rooting for the CCP virus to ruin our country is their demonization of hydroxychloroquine (HCQ). AG Barr, in an interview with Laura Ingraham (4/08), aptly described it as *a media "Jihad"*:

> *"The politicization of (the President's) decisions like hydroxychloroquine has been amazing to me. Before the president said anything about it, there was fair and balanced coverage of this very promising drug, and the fact that it had such a long track record that the risks were pretty well known. As soon as he said something positive about it, the media has been on a Jihad to discredit the drug. It's quite strange."*

The enemedia's favorite sneering epithet for HCQ is "anecdotal." It's also Fauci's. Somebody needs to duct tape his mouth shut to prevent him from using it. HCQ is being used by doctors and hospitals all over the country as that's the only thing they have to help CCP virus sufferers. To argue against it with scare or dismissive stories is criminal.

How about this for an "anecdote"? There are over one billion people living in the malarial countries of Subsaharan Africa. Scroll down Worldometer's daily Coronavirus Update on 210 countries and territories – you have to scroll way down – and you'll see the number of deaths among the 32 malarial African countries listed is miniscule – most have just 1 to 3. Among Nigeria's 200 million (Africa's most populous country) there are only 7.

Why is this? It's because so many millions of Africans take HCQ for malaria prophylaxis.

Here's something not anecdotal, a news report from the New York Post on Monday (4/06): Major

Medical Group Endorses Anti-Malarial Drug Treatment for Coronavirus Patients.

> *"America's major medical society specializing in the treatment of respiratory diseases has endorsed using hydroxychloroquine for seriously ill hospitalized coronavirus patients. The American Thoracic Society issued guidelines Monday that suggest COVID-19 patients with pneumonia get doses of the anti-malaria drug."*

And this just in today (4/10) to set every TDS-sufferer's hair on fire: TRUMP'S MIRACLE DRUG: French Study of 1,000+ Patients Including Seniors See 98% Success Rate with Hydroxychloroquine-Azithromycin Regimen.

****

Another clear example of the Dems' wanting the CCP virus to destroy America's economy and the livelihoods of tens of millions of Americans in order that POTUS not be reelected is Obamatard Zeke Emmanuel, the architect of the Great Obamacare Failure.

On Wednesday (4/08) on MSNBC, he proclaimed there must be a complete National Lockdown for 18 months. "We have no choice," he says. Note that well-known Jesse Kelly in the link rightly notes that anyone who advocates this is "anti-human trash."

****

True enough, Jesse. Only anti-human trash would use the virus hysteria they created to demand complete voter fraud via national mandatory mail-in ballots. And that is precisely what the Dems are doing.

At last Friday's (4/03 after HFR's deadline) WH press conference, libtard Jon Karl asked POTUS why we shouldn't have national mail-in voting because virus. Now *this* is being a president:

RNC Chairwoman Ronna McDaniel followed this up on Tuesday (4/07) by condemning Pelosi's and other Dems' demand as a desire to destroy democracy in America.

Meanwhile, while the WaPo is all in favor of locking down the entire country, it's in tears over POTUS locking down our border with Mexico: Trump Suspends Immigration Laws, Showcases Vision for Locked-Down Border. So sad.

****

What's ruining the Dem fascisti narrative is Disraeli's dictum that there are three kinds of lies: "Lies, Damned Lies, and Statistics." The CDC is corrupting the CCP virus stats to protect the Dem narrative twice over.

That is, the number of actual cases is several times higher than those tested confirmed – because the symptoms are too mild to report for most – while death attribution to the virus is grossly inflated: The CDC Confesses to Lying about Covid-19 Death Numbers.

Thus the lethality of the CCP virus is a fraction of a percent.

This is why AAPS, The Association of American Physicians and Surgeons is asking: Coronavirus Covid-19 – Public Health Apocalypse or Panic and Anti-American?

After pointing out that all the models and reported stats are grossly wrong, and the key difference between the 1918 Spanish flu and this one is the former killed people of all ages while the latter only the elder or those already sick, it concludes:

> *"What can be done to end this epidemic? The answer is herd immunity. Let those who will not die nor become seriously ill from the disease get infected and immune to the disease. Don't close schools – open them up! Don't close universities – reopen them! Let those under the age of 65 with no significant health problems go to work. Their risk of death is very close to zero. They become the wall that stops the virus.*
>
> *Our current strategy of isolating these healthy people from the virus: a. is not working – the virus is still spreading and b. for those who theoretically may be shielded from the virus, they will get exposed later. Our current strategy is actually leading to a prolonged COVID-19 season!*
>
> *Herd immunity works and despite our current efforts to mess it up, herd immunity will be the ultimate reason the virus dies down. We should promote the concept, not try to stop it. Unlike the influenza epidemics of the past, this virus is not attacking young people. We can use herd immunity to our collective advantage.*

> *Many are more concerned with what is happening to American society than what the virus will do to us medically. Bad government policies are leading to economic destruction, possibly on a scale not ever seen in our country. This is being imposed upon us. State governors seem almost in a race to see who can cause the most dramatic removal of basic constitutional liberties. All of this is reminiscent of Nazi and Communist state control of people.*

> *It seems to be working; with their willing accomplices in the media, Americans at this time are seemingly eager to exchange their freedom for what they believe to be security and safety. What they don't realize is if this is allowed to continue, they will lose their security, safety and their freedom."*

The AAPS report is lengthy but worth your full read. Be sure to focus on the Update at the end: *State Lockdowns Aren't Having an Impact in COVID-19 Death*. The facts are eye-opening.

****

Okay – enough of this. What else is happening? Well, for one, the fate of Bernie Lenin:

For another, last night (4/09), Tucker Carlson asked the key questions about the guy the Dems are left with:

> *"Ask yourself, is Joe Biden ready to lead this country? Could he find his car in a three-tiered parking garage? Could he navigate a salad bar? And by the way, what exactly is his position on the coronavirus pandemic? Those are the mysteries Democrats now face."*

Ahh, but the HFR has the solution, the silver bullet, to guarantee Joe's certain victory over Orange Man Bad in November. Are you listening, Joe? You promised you'd have a woman as your running mate, right? Yes, you hinted about that Half-Wit Gov of Michigan, but she's white, a killer liability.

Well, Joe, your running mate dreams have come true! Here she is, ready and willing! You saw the headline yesterday (4/09), I'm sure: Stacey Abrams: I Would be 'Honored' to Be Biden's Running Mate.

It's a sure winner, Joe! You can't lose with a fat, ugly black woman with an IQ of 60 and no accomplishment whatever! Do it, Joe! Don't let us down!

****

More substantively, Bill Barr had a follow up appearance on Fox yesterday to drop this bombshell regarding the Russia Russia Russia investigation of Trump's 2016 campaign and his presidency:

> *"My own view is that the evidence shows that we're not dealing with just the mistakes or sloppiness. There was something far more troubling here. We're going to get to the bottom of it. And if people broke the law and we can establish that with the evidence, they will be prosecuted.*

> *"The President has every right to be frustrated. What happened to him was one of the greatest travesties in American history -- without any basis. They started this investigation of his campaign. And even more concerning, actually, is what happened after the campaign. A whole pattern of events while he was president ... to sabotage the presidency ... or at least have the effect of sabotaging the presidency."*

This is the sitting Attorney General of the United States saying this about officials of the Obama administration.

Now couple that with this revelation about Barr's go-to-guy to criminally prosecute those officials, the ringleader of whom was Obama's Communist CIA chief John Brennan: John Durham Investigation Intensifies Focus on John Brennan.

Our dream of Brennan, Comey, and McCabe being cell-mates at Leavenworth just took another step closer to reality.

****

Easter is a time of hope. So here is a sign of hope for our young Millennial generation – proof they are not all snowflakes, far from it.

There are two Millennial sisters who perform and sing as *Neoni*, whose electronic music may be far from your cup of tea. But they are tremendously popular with the young, and here is their message to them:

> **“**Q: What is the message that you hope for your fans to take away from this upcoming release?
>
> *That the only person who can put limits on you is yourself. We want to remind people that with enough hard work and sacrifice you can legitimately be whoever you want to be! We want to inspire people to throw middle fingers at their haters and to fight for the person they can become and are becoming! Never listen to people who say you can’t, you’re not good enough, or that’s not in your cards. It’s our everyday decisions that decide our future and we all have the power to decide!”*

There is hope for the future.

****

This Sunday is a glorious day, a celebration of Christ’s Resurrection and hope for all mankind. Take the time to celebrate with confidence that our President will soon place our country and economy on the road to resurrection.

Happy Easter to you all.
