HALF-FULL REPORT 05/01/20

Welcome to the May Day HFR!

In much of the world, today is Commie Day. The link is TTP's real history of the Left's perversion of today, May 1st:

"For millennia, especially here in Europe, the First of May was a happy, joyful celebration of life after winter, with dancing around a Maypole and crowning a pretty girl with flowers as Queen of May.

I grew up in California. When we were kids, my sisters would always get up early to pick flowers, and leave them in a basket at the front door for Mom, our family's Queen of May.

Today is a national holiday in Germany, as it is in over 30 other countries in Europe and dozens of other countries around the world. But not as May Day.

Instead, it's called International Workers Day. Since it was the invention of Communists in 1889, it should be called Commie Day. Only Communists could take an innocent celebration of springtime and turn it into celebration of murder, terrorism, hate, and envy. Here's the story."

But not for us! We should mark today as *Liberation Day*, an Anti-Communist, Anti-Fascist recapture of our most basic liberties the Left has attempted to steal from us with the excuse of a flu bug hysteria.

The picture you see above is of Huntington Beach in Orange County, California last Sunday (4/26),

thousands joyously flaunting Gov. Newsom's lockdown edicts in gorgeous warm weather. You can be sure it will be the same this weekend as the temps will be in the 80s, and…

On Monday (4/27(in an act of sheer spiteful vindictiveness, Newsom ordered reinforcement of state-wide beach closures and threatened to keep his state-wide stay-at-home edict in effect for weeks.

That backfired big time, so yesterday (4/30), he singled out Orange County for beachgoers there giving him the one-finger salute, declaring only Orange County beaches will remain closed until further notice.

Immediately in response, Orange County Sheriff Don Barnes told the press The Orange County Sheriff's Department Will Not Enforce Newsom's Order: We are "not taking enforcement action on this order," he said. Early this morning (5/01), he issued this statement:

So you can bet California beaches will be as crowded this weekend and from now on as they were last weekend when the London Daily Mail photo-documented it. Here's the Orange County Register photo of Huntington Beach this afternoon (5/01):

April is gone with the wind, and everyone wants the US to open back up – except for fascist governors like Newsom, that evil witch in Michigan, the obese crook in Illinois and their ilk.

****

Here's a good compendium of all 50 states' status on opening up or refusing to, updated to today (5/01). It's a start, mostly too timid and over-cautious, but it's the camel's nose under the edge of the tent.

Last Saturday (4/26) at an anti-lockdown rally in Dallas, beauty salon owner Shelly Luther displayed the police citation and a judge's cease-desist order she received for opening up her business without permission. She proceeded to rip them up in front of the cheering crowd.

You are going to see a tsunami of such civil disobedience of business owners and employees washing away the fascisti edicts preventing them from making a living. Watch for it because here it comes:

Maddest of all are Michiganders rapidly approaching armed revolt against Wretched Gretchen the Half-Wit. She should use that half-brain of hers to take POTUS' advice this morning (5/01):

Donald J. Trump @realDonaldTrump · 5h

The Governor of Michigan should give a little, and put out the fire. These are very good people, but they are angry. They want their lives back again, safely! See them, talk to them, make a deal.

Good advice albeit a bit muted – which brings me to something odd. On Tuesday (4/28), TTP published [The Address to the Nation President Trump Should Deliver on May First](). By Wednesday (4/29) it was in the personal hands of POTUS' key advisor – discretely retitled "*Our Dark Age Is Over, the American Renaissance Begins* – who discussed it with him in the Oval Office.

Early the next day (4/30), he tweeted this:

The longer Cuomo, Newsom, and Northam keep businesses from reopening, the more difficult it will be for American families to recover.

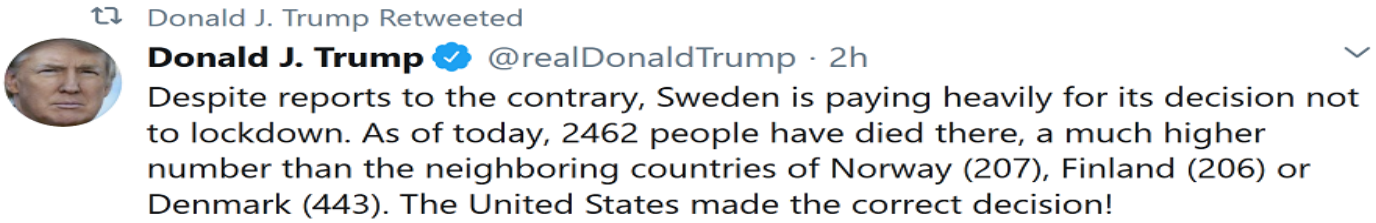
The arrow is pointing to the car's doorlock. We were hopeful that POTUS would deliver a May Day address that bore a resemblance to what we suggested. Then out of the blue 12 hours later

yesterday evening came this:



What happened? Word is: "Fauci got to him." Ouch.

Yesterday, Patricia McCarthy pleaded, Trust Your Instincts, Mr. President! He knows his instincts well, but he's still figuring out how to finesse his way out of the trap Fauci has set for him. Word is, he's going to let the lockdown resisters do it for him.

That is, he'll give them gentle encouragement (see the Michigan tweet above), showcase governors in the Oval Office who are opening up, like Rod DeSantis, or Dems who will publicly praise his help, like Phil Murphy, and trust the tsunami referenced above will wash Fauci away with the rest of the pro-shutdown/lockdown fascisti.

And sure enough – what do we find today (5/01), that what were "anti-lockdown protests" are now called "*Reopen Rallies"* appearing everywhere: People Across Nation Protest Coronavirus Restrictions in Reopen Rallies. It's the "New Tea Party Movement" admits lib-journo Andrea Mitchell, with encouragement not obstruction from the White House.

Never underestimate PDJT's genius at strategy, advise TTP's Jack Kelly and Yasuhiko Kimura. Looks like we shouldn't.

Okay – time for the other two big stories of the week. And for gratitude that there is finally other Big News instead of this stupid flu virus 24/7.

First is the delightful goat orgy Joe the Pervert has gotten himself into. Delightful for the spectacle of #MeToo Dems twisting themselves into pretzels defending an accused sexual predator who suffers far, far more corroboration from his accuser than ever did Justice Kavanaugh.

The hypocrisy got so bad that on Wednesday (4/29), the New York Times had to beg Slimy Joe to defend himself: Democrat Frustration Mounts as Biden Remains Silent on Sexual Assault Allegation: *"Activists and women's rights advocates have urged Mr. Biden to address a former aide's allegation that he sexually assaulted her in 1993. His lack of response has angered them."*

This morning (5/01) on MSNBC (natch), Burisma Beijing Biden stonewalled: "It never, never, happened"… while refusing to release Senate records at the time.

Trouble is, there's a lot more history to Slimy Joe's predation on women than just Tara. She

happens to be Biden's 8th sexual accuser.

Joe – you in a whole heap a' trouble, boy!

And to confess – this is nothing to gloat about. Whatever possessed Dems to even occur to them this nutso putz should be their candidate is rapidly evaporating. It's increasingly unlikely that he'll never reach the convention intact, and we'll never get to see POTUS eviscerating him with glee in a debate.

Then again, who in holy hades have the Dems for backup? It's not like they've got a deep bench. So how's this for a silver lining to Biden's disintegration? No prediction, just a don't-be-surprised if they get all in an orgasmic frisson over *Hillary-Michelle.*

Hope you weren't drinking anything when you read that as you likely lost it, spraying your entire surroundings. But think about it: A *Two*-women ticket, history-making, the two most famous political women in the country, and one is black! Michelle doesn't have to do anything as VP, just jet-set travel on the taxpayer's dime as before. I could go on, but you get it. Now wait for it. You'll be the only one you know (save for fellow TTPers) who won't be shocked.

You also won't be shocked when Trump eviscerates them too.

Now on to the other Biggie of the Week. Cutting to the chase, here are three POTUS tweets from yesterday and ereyesterday:

What did FBI Director Christopher Wray know and when? And why has he been covering for these scum bags?

FBI discussed interviewing Michael Flynn 'to get him to lie' and 'get him ...

Explosive new internal FBI documents unsealed Wednesday show that bureau officials discussed their motivations for interviewing then-nation...

foxnews.com

Finally a presidential attack on Obama himself. Not to mention going after Comey, but current FBI Director Wray, who has done absolutely *nothing* but protect the bureaucracy of which he is a life-long part from any investigation of wrong-doing whatever.

This is not only an exoneration of General Flynn, but setting up for a full disinfecting housecleaning of the mortally-compromised FBI from very top to bottom. Can't wait to see it for real.

Folks, the past two months have been the worst in modern American memory. But they are now over. The sun is shining, the weather is warm or is warming. A majority of us are no longer tolerating these fascist shutdowns of our livelihoods that never should have been enacted in the first place.

But that's water under the bridge. We are crossing the bridge to freedom again. We had the greatest economy on the planet ever, and along comes a Black Swan that trashes it overnight. A Black Swan that hit us from nowhere, including most especially our President, who knew no matter

what he did, he would be mercilessly demonized by an Enemedia that *is* the Enemy of America.

We have suffered enormous damage, but it is not irreparable. The nightmare is ending, no matter how much the Left wants it to continue. We will prevail, because of the enduring spirit of the American people, and the guidance of our President.

So we close with this video that brought tears to my eyes, to my wife's, and I predict to yours. It is entitled *In Honor of President Donald J. Trump.*
