SKYE'S LINKS 03/14/24

Try to contain your excitement, but a Nobel Prize-winning Leftist economist has finally realized that mass migration may not be such a great idea after all! Plus, more proof of malfeasance by Fauci and Liz Cheney; spying by the PTB (powers that be); continued Lawfare; and Chinese sabotage in our ports – reality is making itself felt. Pop some corn and sit back. But first, let's start with some humor, shall we?

John Kerry Praises Haitian Cannibals' Efforts to Reduce Humanity's Carbon Footprint

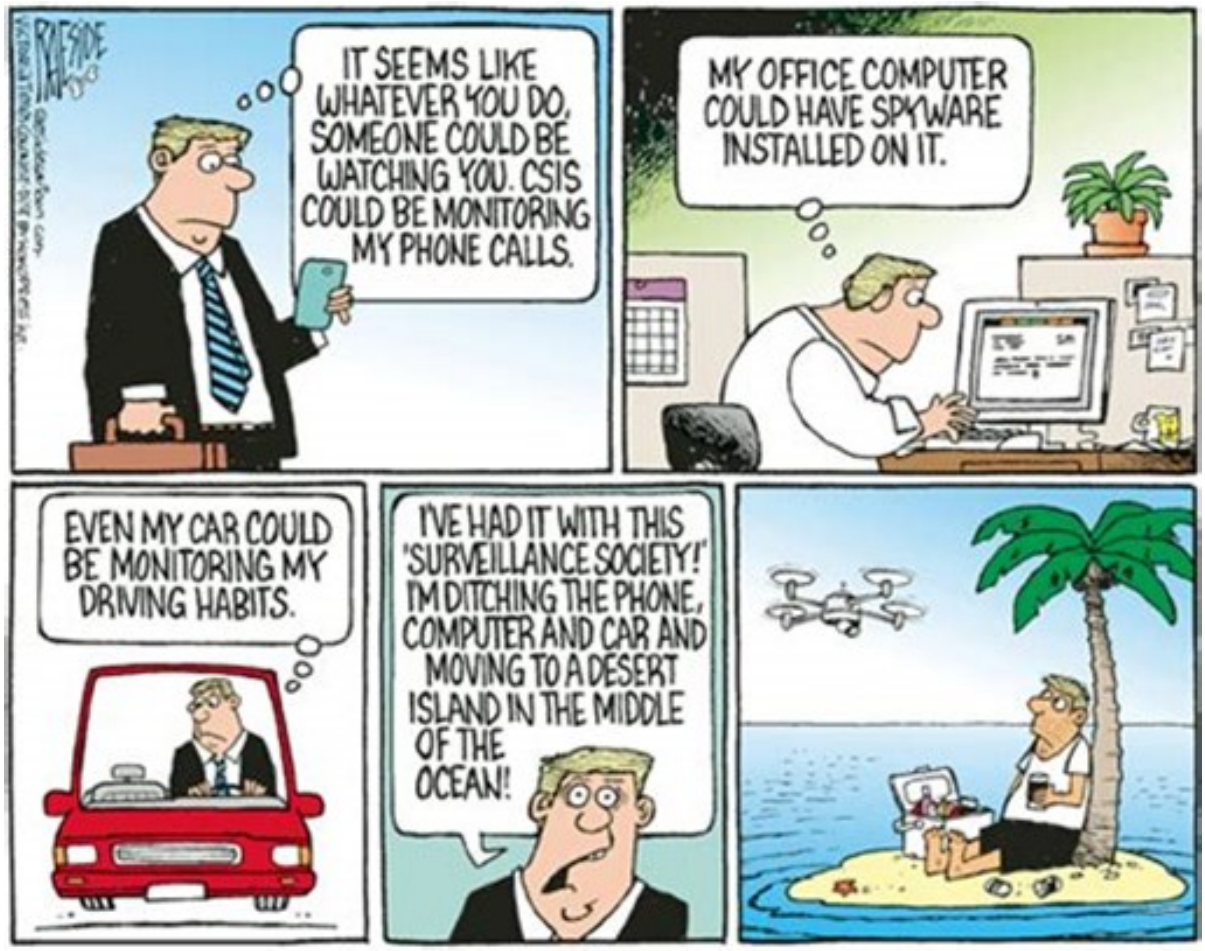
Fauci was warned about vaccine mandates:

[Fauci Deputy Warned Him Against Vaccine Mandates: Email]

But Trump can never, never, ever admit that he was wrong about anything, including the pseudo-mRNA COVID vaccines. Worse yet, he claims that he was against the vaccine mandates, but he could have stopped all of the federalie ones with an executive order - but didn't:

[Trump "Clearly Hasn't Learned From His COVID-Era Mistakes," RFK Jr. Says]



Your car may be spying on you, and this could have costly consequences:
