HALF-FULL REPORT 08/02/24

Most of the entire world has recoiled in disgust at how literally satanic the Paris Olympics have been – but why should anyone be surprised?

For what characterizes the Woke Left more than anything is satanism – i.e., the worship of evil as such – exemplified by fanatical advocacy of abortion up to and including birth, and of genital mutilation of children. Add to that the goal of America's and Western Civilization's extinction via mass Third World illegal immigration.

Such worship became overt at the Olympics, at the very start with the Opening Ceremony explicitly ridiculing Christianity – completely gratuitously, with no connection to the purpose of the Games whatever. The purpose was made clear by the grossly obese lesbian, Barbara Butch, portraying a female Jesus flanked by various drag queens and pedos:

Add to this degraded insult the literal physical injury of men beating up women as an Olympic Sport:

“To the eternal shame of the Olympics, XY chromosome male boxer Imane Khelif was allowed to compete against a woman, which is not only insane, it is an outright act of cruelty.

Despite what you might see in woke movies, women have almost zero chance in fights against men. Weight class has zero to do with it. Men are much, much stronger than women, which is why civilization has separated men’s and women’s sports since time began. Men competing against women is simply … cheating. But what happened at the Olympics is even worse.

In front of the whole world, Khelif was allowed to beat on a woman for 46 seconds until her headgear was knocked loose, until she landed on her knees, crying in frustration as her lifelong dream was shattered through an intolerable injustice. What happened to Italy’s Angela Carini was not only unfair, it was cruel and savage.

> *This young woman spent her formative years sweating, working out, and sacrificing, and, now, it's all been stolen by a malicious cheater backed by a monstrous ideology that told her: You can either quit on your knees or risk a life-shattering injury because our obscene ideology comes before fairness, your personal safety, and biology."* John Nolte

But soon all of this will be swept into the dustbin of history:

> Today, Angela Carini had her Olympics dreams shattered by Imane Khelif, a male boxer. It is also expected that he broke her nose. I will keep men out of women's sports! The IOC should be ashamed of themselves. #IStandWithAngelaCarini pic.twitter.com/BPZygImtRh

This has received 310 thousand views on YouTube since it was posted last Saturday (7/27). Look what happened since Elon posted it on his Twitter-X feed:

Yes, 134 *million* views. Elon's X is leaving all media competitors – Facebook, Instagram, deadtree and TV legacy ex-mainstream, you name it – receding fast in the rear-view mirror. Musk personally has 193 million followers. Thanks to him, people know the truth about VP Heels Up that the Dem media propagandists are desperately trying to cover up.

Now you see him, now you don't. Nikolai Yezhov (1895-1940) was head of Stalin's NKVD Secret Police who ran the Great Purge until Stalin had him executed – whereupon he was airbrushed out of any photo or mention of in any book or media by Kremin propagandists. The story and that of many others is told in historian David King's fascinating The Commissar Vanishes: The Falsification of Photographs and Art in Stalin's Russia.

It brings to mind that joke that made the rounds in the Reagan White House. *What's the definition of a Soviet historian? Someone who can accurately predict the past.*

Today, that applies to Democrat historians. Thus it is truly ironic that in 2018, the New Yorker wrote a photo-essay review of King's book entitled The Photo Book That Captured How The Soviet Regime Made Truth Disappear. For that is precisely what it's crosstown rival's current issue is engaged in:

The cover story is actually entitled: [The Case for Being Unburdened by What Has Been: The thrill of taking a huge risk on Kamala Harris](#).

Right. “Unburdened” by all the whoring, the idiocy, the DEI hiring, the unending record of woke lunacy – let’s make it all disappear just like Stalin did!

Problem is, Stalin had a media monopoly while the Dems’ one they had in 2020 is gone with the

wind now thanks largely to Elon's X. And widely read news sources like the New York Post on Tuesday (7/30): Kamalaflage: Dems Race To Expunge The Evidence Of Harris' Leftist History.

Or the Daily Mail, whose US correspondent Maureen Calahan reveals: The SIX Fatal Secrets About Harris's Dirty Past, Her Lies And Hypocrisy That She'll Wish You Didn't Know.

It's a fun must-read. But to sum it up, besides being a total fraud and Deep State puppet, she *owns the border and the 10 million+ illegals she let in*; she *repeatedly vouched for Biden's physical and cognitive health*; she's *intellectually, interpersonally incapable of executing the most stressful job in the world*; she *shamelessly shape-shifts her policy positions*; she has *zero foreign policy experience and zero backbone*; she *has no stated premise or philosophy, no existential reason for running. She has no record, no real cause to show after four years as VP*.

That was Wednesday (7/31). Today (8/02), the DM reported: Kamala Spouts Bizarre Word Salad As She Welcomes Freed Americans. Just after midnight, the freed prisoners met their families at Joint Base Andrews in Maryland with FJB and KH to greet them. With FJB staring blankly off into space, she served up "her trademark word salad" to the reporters:

> *"This is just an extraordinary testament to the importance of having a president who understands the power of diplomacy and understands the strength that rests in understanding the significance of diplomacy."*

Sorry, Dems, you can't make a silk purse out of a sow's ear. Not even your Soviet historians can do that now.

CA's woketard gov got his panties in such a twist over this, Elon couldn't resist responding:

Very unwise to pick a fight with the world's richest, smartest, most serially successful, and most widely read man, Gavin.

****

It's also unwise for Venezuela's thug dictator Nicolas Maduo to pick a fight with Musk. Yes, he actually did. Wednesday (7/31): Elon Musk Accepts Venezuelan President Nicolás Maduro's Challenge To Fight. As in a real cage fight. Musk's terms:

As Maduro agreed to "anywhere" for the fight, the minute he lands in a non-communist country,

he’ll be arrested for the bounty on him – which my friend Erik Prince says should be raised in any regard.

With the slightest bit of luck, however, Maduro will be overthrown before long. If not before, then certainly after Trump’s victory in November when he pledges to provide all necessary aid to rid Venezuela of Maduro’s communist pestilence.

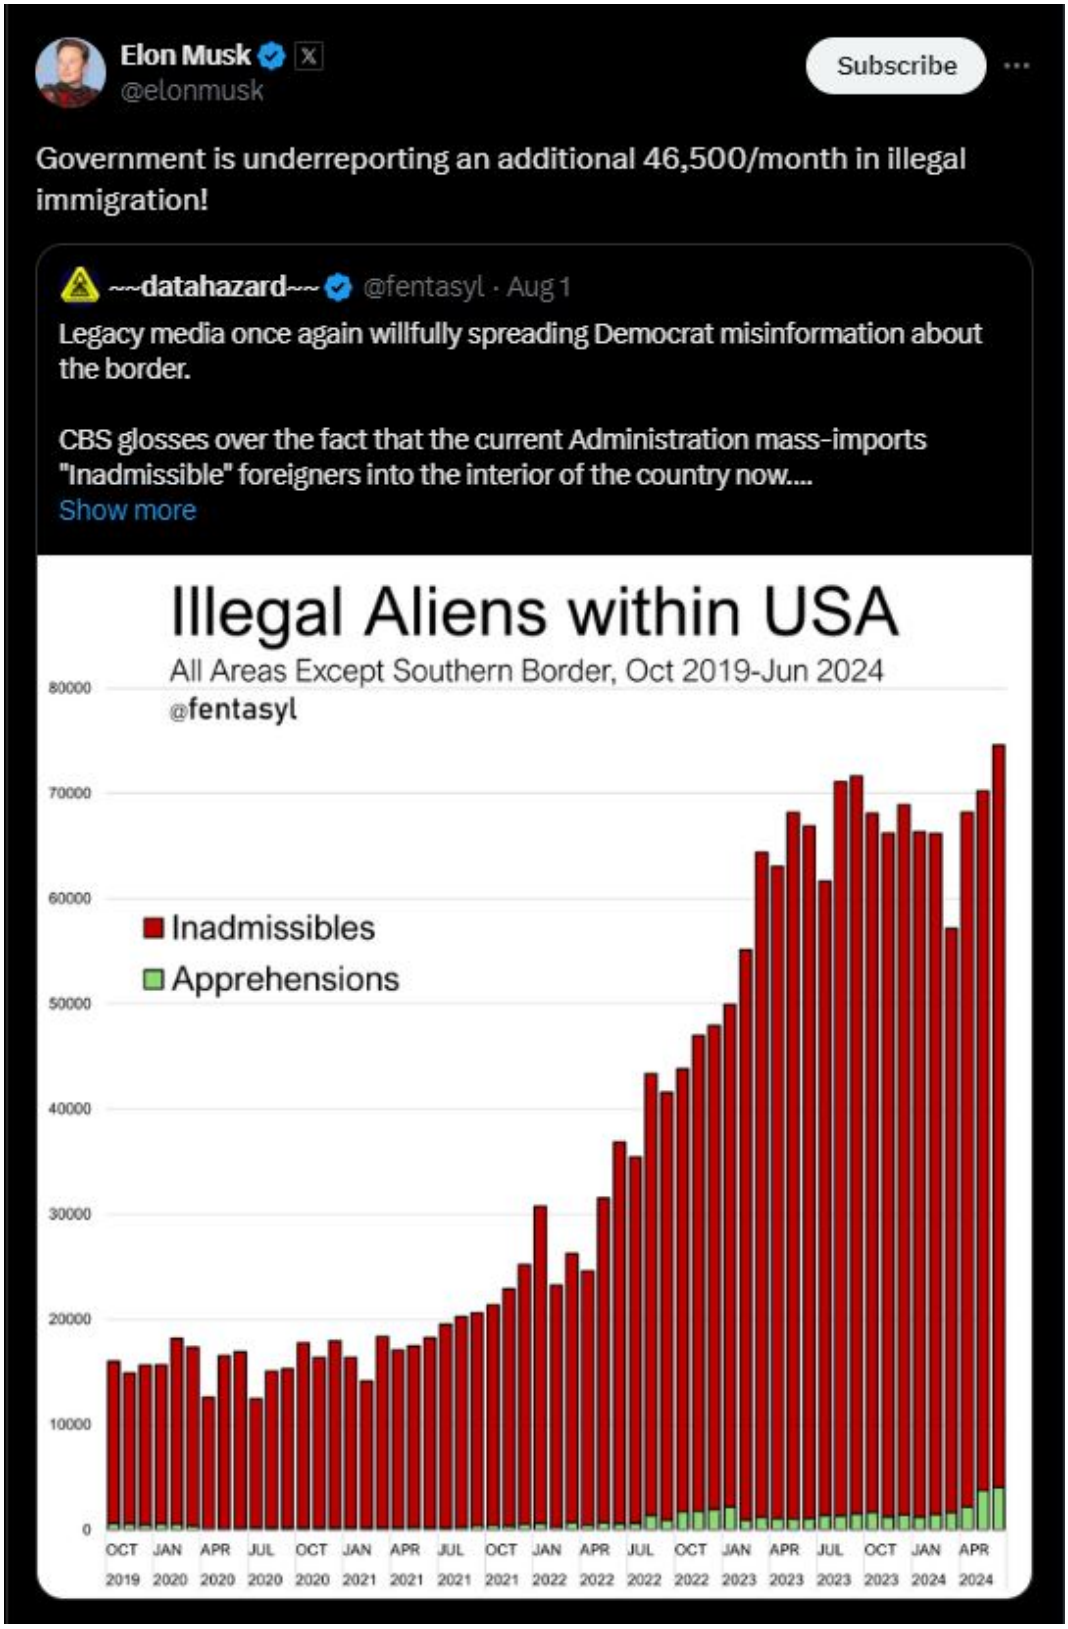
Of course, that photo is several years old. He'll be 18 in a few days, This fuzzy photo is what he looks like now:

As a result: Violent Anti-Immigration Protests Break Out In UK After Vigil Over Stabbing Spree. And the new Commie Labor government response? Blame it all on the "far right" requiring Mass Surveillance Plan Revealed By UK Prime Minister Starmer.

Now let's combine what's happening in Venezuela and the UK with this:



Putting that together should add up to a blindingly clear warning to the Dems: Don’t even think of

trying to cheat your way into the White House this November like you got away with four years ago – for the handwriting of your fate has already been written if you do.

For the summer frisson of Kamalamania will soon be forgotten. This headline of today is only the start of voters waking up to reality: Stocks Plunge Amid Fears Of US Economy 'Collapse'. We are still in a four year-old recession with inflation still rising. Look at Erik's basic commodity price compilation for example:

It will be a Dem three ring circus of Black Swan Distractions from now until November and beyond. When reality sets in, voters will realize:
