More job opportunities for Hamas as another one bites the bloody dust:

The October 7th Mastermind Has Been Eliminated

What's wrong with these pictures? The Authenticity Vetter for the NYT must have been sun-blind when he/she/it verified this anti-Israel hit job:

[‘Magic Bullets:’ Did the New York Times Publish Forged Evidence of Israeli Atrocities?]

Is NYT just gullible or….this is eerily reminiscent of the Palestinian poet fiasco — fool me once, shame on you; fool me twice…I'm either a fool or a *knave*:

The Left Can't Sports: Clay Travis DROPS Aaron Rupar Trying to Mock Trump's Baseball Reference

They’re baaaaaaack. “*The Science*” says they must (you know, *Political Science*):

Mask Mandates Are Back In California

Make sure you take one last, *careful* look at what you’ve got if you use AI to manipulate a picture:

AI Unbuttoned This Programmer's Blouse, but It Isn't What You Think

These two men are an inspiration. Imperfect, yes, they're not gods. But they are men of courage and conviction, rare commodities today:

The New Patriots

This is absolute gold! Be sure to listen to the last vid – but swallow your drink *first!*
