GIVE MAMDANI WHAT HE WANTS

New Yorkers have handed America's biggest and most famous city- the financial capital of the world- to a radical Muslim communist, who pals around with Jihadi terrorists, supports "global intifada," wants to tax whites higher than minorities, and has never held a real job in his life.

New York City is now officially "Kabul on the Hudson."

Or

"North Korea meets Sharia."

Aren't New Yorkers proud? What an achievement. All because the city that used to be known as "the greatest city on the planet" is now filled with a poisonous mixture of young jobless communists angry at living in their parents' basement, and foreigners who hate the country they invaded, and want to turn us into the failed third world s***tholes they just escaped from.

So, I have an idea. “If you can’t beat them, give ‘em what they want.”

Here is how President Trump can win this battle for the soul of America. Stop fighting the communists and Muslim terrorist appeasers. Give them what they want….

President Trump should declare New York City is now a “ILLEGAL ALIEN FREE ZONE.”

My idea is so simple. America- thanks to President Trump- is locked down. The border is secure. And ICE is busy hunting down and deporting illegal aliens from coast to coast. Illegals aren’t safe. They can’t sleep at night. ICE can and will find you wherever you are.

Except New York City.

Let’s agree we won’t touch them there. ICE won’t enter the “ILLEGAL ALIEN FREE ZONE.” That will encourage every illegal alien left in America to move to NYC if they want to avoid deportation.

Now many of you are probably thinking I’m planning a trap. Once gathered there, we can send ICE in and arrest them all. After they’ve all gathered in one place, it would be like rounding up and deporting fish in a barrel.

But no, that’s not my plan. Because…

A)I want President Trump and MAGA to always keep our word- unlike Democrats who believe any lie, or fraud, or misrepresentation is justified because “the ends justify the means.”

And

B)Rounding up all the illegals in NYC won’t end the debate.

I want to make New York City the largest communist experiment in the history of America. I want to give Mamdani what he wants. I want to end this great American debate once and for all.

Let Mamdani and his communist comrades turn NYC into North Korea meets Sharia. Give the inmates the keys to the asylum. You wanted NYC to be a place where every illegal alien is safe. You got it! “Your wish is my command.”

But be careful what you wish for.

Anywhere in America an illegal alien is found, they will be arrested by ICE and deported. But not in Mamdani's New York. This is their safe space.

This is the "ILLEGAL ALIEN SAFE ZONE."

Then let's all sit back, put our feet up, break out the popcorn, and watch NYC implode.

Can you imagine what happens when millions of illegal aliens- including MS-13 gangbangers, Tren de Aragua drug traffickers, Hamas and Hezbollah terrorists, and run of the mill murderers, rapists, drug dealers, pedophiles, car-jackers, home invaders, muggers and armed robbers- roam freely on the streets of New York? Remember, Mamdani hates police and wants to defund NYPD.

Can you imagine what happens when millions of illegal alien welfare queens invade NYC all expecting cradle to grave welfare, food stamps, free housing, free healthcare and free food from government-run grocery stores.

Can you imagine what happens when millions of illegal alien children who don't speak a word of English overwhelm the public schools of NYC.

Can you imagine what happens when all the young liberal women who voted for Mamdani find out about the joys of Sharia Law.

Can you imagine what happens when parents who voted for Mamdani experience Muslim grooming gangs.

Can you imagine what happens when "Gays for Palestine" start seeing their members thrown off roofs for the crime of being gay in NYC.

Can you imagine what happens to Columbia University and NYU when not a single Jewish or Christian parent in America will ever again allow their children to apply there.

Can you imagine what happens to the economy of Mamdani's NYC when "the largest Exodus since the Jews left Egypt" begins. When every business owner, and every high-income earner, and every professional in NYC runs for their lives- bringing all their income, assets and jobs to Florida, or Texas, or all the other red states.

Can you imagine what happens when all these entitled, poverty-stricken, unskilled and violent thugs gathered in one city suddenly realize there is no free lunch…the gravy train has ended…there is no tax revenue anymore…NYC is completely bankrupt…the economy has collapsed…and all the cops have retired, or quit, or transferred out.

We will all finally get to witness what happens when liberal Democrats (ie communists) get their wish.

We will all witness the reality of what communism, and Jihad, and "global intifada," looks like in the middle of America.

We will all witness a real-life "escape from New York" meets "Mad Max."

Good luck to anyone living in Mamdani's "ILLEGAL ALIEN FREE ZONE."

Unfortunately, sadly, tragically, this is the only way to finally end the debate.

My advice to President Trump- stop fighting. Give New Yorkers exactly what they voted for.

My advice to the communists of NYC: Be careful what you wish for.

Let the grand experiment begin!
