Buckle up, TTPers. 2025 was the warm-up, the prelims. POTUS is just getting started. He well knows that 2026 is the Make or Break year not just for his presidency but for America.

Yesterday (1/01), he identified the crux issue, the single most necessary issue of the moment:

> This clip hits like an earthquake.
>
> I we don't nuke the filibuster now, Democrats win the Senate and THEY WILL on day one! @LeaderJohnThune
>
> Trump: "It's time for Republicans to do what they have to do: terminate the filibuster. If you don't? You'll be in BAD shape. We won't… pic.twitter.com/G8oEcRchBC

The Bill he is talking about is the SAVE Act HR22 ("Safeguard American Voter Eligibility Act") requiring proof of United States citizenship to register an individual to vote in elections for Federal office. On April 10, 2025, it passed the House by 220-208, with only 4 D-Yes votes (Ed Case-HI, Henry Cuellar-TX, Mare Perez-WA, Jared Golden-ME) and not one R-No vote.

POTUS makes the obvious clear: the 204 D-No votes is public admission the Democrat Party

intends to rig the November mid-terms with countless illegal alien, non-citizen, or non-existing (made-up or dead) “votes.”

Since April, Senate Majority Leader John Thune has allowed a Dem filibuster to block a vote on the SAVE Act. The Filibuster is a procedural rule that can be repealed by a simple majority vote (50+1 vote of the Vice-President). Thune won’t attempt this, saying he doesn’t have the votes – and he may well be right.

With a 53-47 majority, Thune can afford to lose only 3 votes, and has 4 Never-Trumpers: McConnell, Collins, Murkowski and Paul. Besides, the SAVE Act only requires Citizen Voter ID to *register* to vote, it does *not* require Citizen Voter ID at the voting booth. Thus, California’s state law making it *actually illegal to show Voter ID when voting* is in no way invalidated by SAVE.

Further, SAVE in no way bans mail-in ballots, just prohibits counting mail-in ballots received after Election Day (which is a very good first step, which stops Dems from manufacturing and counting fake ballots for enough days after the election to declare “victory”).

In fact – you may no believe this but it’s true – *there is no Bill being sponsored by any Member of the current 119th Congress to ban mail-in ballots.* And more -- *no bill in the 119th Congress has been introduced to mandate or require same-day in-person voting exclusively on Election*.

Mr. President, could you please give Speaker Johnson a call on this? Legislation on Same Day Voting, No Mail-In Ballots, Voter ID at the Polling Booth doesn’t even exist, much less been voted on and passed by the House. Thune can’t demand suspension of the filibuster to pass a non-existent Bill.

Hope you’re not in cardiac arrest over this, but Houston, we do have a problem and it’s gotta be fixed fast. No POTUS EO can fix it, only a law passed by both House & Senate then signed by him can. The Constitution overtly permits federal to supersede state laws on federal elections:

> *“Article 1 Section 4: The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by Law make or alter such Regulations.”*

Time to inundate Speaker Johnson’s office (202-225-2777) and your own Congresscritter’s if R

with requests on this matter. No time to lose.

****

Not a chance, dirtballs.

At the Trumps' New Year's Eve Ball at Mar-a-Lago Wednesday night (12/31), all eyes were fixed on Melania who "shimmered and stunned" in a silver sequin gown that "brought back Old Hollywood Glamor" – you can see why. Holy Toledo!

Then POTUS brought the house down, explaining:

> This clip is pure fire!
>
> Trump says : "California's worse, Illinois is worse and sadly, New York is worse!"
>
> He's grinning like he knows the real anti-fraud squads are about to drop some justice on these Democrat strongholds.

> These sleazy leftist grifters turned blue states into… pic.twitter.com/pky2cCxYeU

But that's only the whisper of a hint. Every day now more grafting corrupt thievery of US taxpayer dollars is being discovered almost everywhere in Dem run cities and states. There's got to be some in GOP states too but whatever that is, it's dwarfed by Dem perfidy.

Dep. White House Chief of Staff Stephn Miller sums it up:

Which Chuck Schumer makes explicitly clear:

> And that's exactly what they've been doing https://t.co/iexvkFupZe

So, I'd like you to listen to Scott Adams explaining why he thinks the Democrat Party is a criminal organization rather than a political party, no hyperbole or exaggeration, but actually criminal for real.

> Scott Adams breaks down all the ways the Democratic Party is a Criminal Organization.

But what's the bottom line? The multi-trillion dollar filth of nationwide Dem corruption is the Augean Stables of America. In Greek Mythology, it took Heracles (the Romans called him Hercules) to clean them out. Is Trump capable of being America's Hercules?

While the good folks at Just The News are optimistic -- Trump's Second Term Brings A Triple Dose Of Doubling Down On Policy Issues – those issues are immigration, tariffs, and eradication of DEI.

You just heard POTUS declare he is "going to get to the bottom" of the Dems' "giant scam" network. What must that mean? What it must not be is another useless Oversight Committee hearing to which Comer has "invited" Walz to testify.

What it must be is what Scott Jennings said it must be on CNN Tuesday (12/30):

> *"Truthfully, until somebody in a position of power, until somebody in a position in Minnesota, elected position, who was in charge of administering this or having some oversight over it, goes to jail, it's honestly never going to stop.*
>
> *Look what's going on in blue states across the country: 9 billion in Minnesota, 70 billion in fraud in California, cooking the crime stats in Washington, D.C.*
>
> *When is someone in a position of power going to go to jail for the rampant fraud? You can put all the low-level people in jail you want, but until somebody in charge goes to jail, it won't stop."*
>
> This was another watershed moment on CNN.
>
> Scott Jennings used his voice to speak for the millions of Americans fed up with fraud running roughshod in blue states across the country.

Elon knows who that must be. Start with Traitor Tim Walz, then Newsom and Pritzker. By that time, Hochul will have capitulated with a deal to hamstring Mamdani and clean out her own Augean Stables in Albany. And use this law to do it:

> Absolutely https://t.co/FPoKRgRyx1

— Elon Musk (@elonmusk) January 2, 2026

And this is the message we all should send to AG Bondi to do it. No more excuses, Pam. No more.

NEW YORK POST

Happy New Year

THURSDAY, JANUARY 1, 2026 / Morning flurries, 32°/ Weather: P. 20 ★★ LATE CITY FINAL nypost.com $2.00

AP

OUT WITH THE OLD, IN WITH THE DUES

■ Mamdani sworn in on Quran as 112th mayor

■ Analysts say Zohran will raise EVERYONE'S taxes

Despite Mayor Mamdani's assertions that only wealthier New Yorkers would have to pay higher taxes to fund universal child care, a liberal think tank crunched the numbers and said reaching deeper into the pockets of corporations and millionaires alone wouldn't be enough to cover the $8 billion annual bill for the program statewide.

PAGES 4-5

Here's the question to be asked regarding Mayor Koran:

> *When will it dawn on the city that suffered 9/11 it elected a Woke Marxist Islamic Nazi mayor?*

His inauguration speech yesterday (1/01) was filled with every treacly bromide you can imagine – save for this line which turned a lot of stomachs: "*We will replace the frigidity of rugged individualism with the warmth of collectivism*." Straight out of Marx.

His first order of business is to appoint a woman with no operational firefighting experience as Fire Chief of New York City because she is a lesbian. "This is wonderful news for the LGTQ community," he said.

His next act was to revoke orders by his predecessor, Eric Adams, including Executive Order 61, which provided additional NYPD security to synagogues in the city, axe the definition of antisemitism adopted by the International Holocaust Remembrance Alliance (IHRA), and overturned a restriction on boycotting Israel put in place by Adams.

It was an act of masochism for New Yorkers to elect this guy.

Wow. Steady, there, big fella. Not a Marine Landing, boots on the ground, surely. But cruise missile strikes on the command headquarters of the Pasdaran Revolutionary Guards and paramilitary Basiji thugs? Bunker busters blowing up Ayatollah Khamenei's home and hideouts? Sounds appropriate.

What's going on in up to 50 cities all over Iran right now is what it takes to overthrow a tyranny: *The Triple-U – Uncontrollable Urban Unrest*.

As Iran's exiled Shah, Reza Shah Pahlavi II addressed his nation today (1/02): "To overcome the regime's repression, there is one clear path forward: millions of people taking to the streets across cities at the same time, while simultaneously blocking key routes and major roads"

https://x.com/ShayanNews is a good source for the latest with frequent updates.

The overthrow of Iran's fascist Mullah Regime would be of immense global significance – worldwide Islamic terrorism and the phenomenon of Radical Islam would suffer a grievous blow. Hezbollah and Hamas would both disintegrate, as would the Houthis of Yemen.

A Pro-West government in Tehran allied with the US would bloom and blossom, while Russia would be bereft of friends in the Middle East.

It's not over until its over. The June 2009 uprising looked like it would succeed, but Obama refused to help in any way and the uprising was squashed. With Trump it's 180-degrees different. If he backs up his lock-and-load rhetoric with the action that's needed, the Ayatollahs are history.

This could happen fast. Yesterday (1/01), the revolt's leader Crown Prince Reza Pahlavi (son of the late Shah, sent out this message:

> Spoken message from Crown Prince @RezaPahlavi to Iranian people:
> "My compatriots, at this moment, the Islamic Republic has reached its end and is in the process of collapse. Khamenei has gone into hiding underground like a scared rat, and has completely lost control of the… pic.twitter.com/jAS4Hlo1gU

Today, Pahlavi issued specific instructions how the streets of central Tehran and other Iranian

cities can be seized. The Ayatollah Terror-Masters overthrew Pahlavi father and began their tyranny on February 1, 1979. The goal of tens of millions of Iranians led by their Crown Prince is to end that tyranny by February 1st, 2026. 31 days from today.

I wrote *Hope for Iran* on TTP after returning from a Wheeler Expedition there in November 2014. It's worth reading now (the photos are all mine). At long last and perhaps even very soon, Iran may be free to flourish once again.

FYI – the painting below has gone viral on all the protest sites, depicting their two heroes – the Crown Prince and……

That’s a wrap. 2026 is going to be an astounding year for freedom, peace, and prosperity. Elon has once again teamed up with Trump to ensure that the GOP is well-financed and the Dems’ scams are bankrupted so the mid-terms are secured for a POTUS victory.

Freedom for the Middle East and freedom for Ukraine – yes, Putin will have lost his war before

year’s end. With that, Xi’s China may be enticed to go after Russia’s Siberia instead of Taiwan. Lots more to come. Buckle your seat belts, 2026 is going to be quite a ride.
