Trump's Oval Office Ambush of South Africa's leader Cyril Ramaphosa on Wednesday (5/21) has so many facets it's a diamond of political exposure. Here are the principal three.

First, what President *ever* would have stones of steel to do such a thing – point out the evil a country is committing to its leader right to his face, and when he denies it, shows him a pre-prepared video disclosing the evil proving it, huge crowds chanting "Kill the Boer!" (White South Africans)?

How chilling is this sight?

[youtube id="6XsQwbQoF-8"]

Trump narrated the footage to Ramaphosa:

> *"These are burial sites right here, over a thousand of white farmers and those cars are lined up to pay love on a Sunday morning. Those cars aren't driving. They're stopped there to pay respects to their family member who was killed, and it's a terrible sight. I've never seen anything like it."*

Second, Google "Trump + Ramaphosa" and you'll get a deluge of condemnations of Trump, praise for Ramaphosa, and accusations of the "false claims" besmirching black-run South Africa. Total denial of "Kill the Boer!" genocidal evil, total lack of sympathy for white farmers murdered by that evil. Three examples of which there are dozens more.

Reuters: South Africans Exasperated By Trump False Claims During Ramaphosa Meeting. BBC: Ramaphosa Keeps Cool During Trump's Choreographed Onslaught. AP: Trump Confronts South African Leader With Baseless Claims Of The Systematic Killing Of White Farmers.

Here's Karoline Leavitt yesterday (5/22) obliterating a racist black NBC reporter claiming the burial site video above is fake:

> 911 there's been a murder. ?
>
> White House Press Secretary Karoline Leavitt just went OFF on a Fake News NBC reporter who claimed the videos President Trump shared of white South African burial sites were fake.

What a gin-clear example of a white lady refusing to apologize to a black lady for her existence, showing absolutely no fear of being envied, not the slightest trace of white guilt.

And of a, perhaps *the*, primary cause of TDS, Trump Derangement Syndrome. More than anything else, those who are envious or fear being envied hate someone who has no fear of them. If there is anything that personifies El Donaldo is his complete lack of worry over being envied. He couldn't care less. Little wonder he hired someone as his White House Spokeswoman who is the same.

Envy, of course, is the source of Black South Africans' call for the murder of White South Africans and the expropriation of their farmland. You won't get a better example of envy being masochistic than this. Remember that envy is not simply hating someone who has what you don't – it is also the willingness to damage yourself in order to damage that someone.

Immediately after Trump met Ramaphosa, Julius Malema, the politician in Trump's video (above), who called for expropriation of white farmer land without compensation in the governing Parliament and led the enormous rally chanting "Kill the Boer!", "Shoot to Kill,", "Kill the Farmer!", doubled-down on his murderous threats.

Over 80% of South Africans are black, most of whom farm their land. 7% are white, most of whom farm theirs. Here are the percentages of what white farmers currently produce of the food that feeds that 80%:

95.3% of their corn

98.7 % of their wheat

97.6 % of their cotton

97.2 % of their citrus

99% of their potatoes

91.4% of their tomatoes

96.9% of their soybean

95.8% of their poultry

66% of their cattle

89% of their wool

In other words, murder the white farmers and steal their land, and there will be famine and mass starvation of blacks in South Africa. South Africa is dying from mass masochism. Trump understands, is trying his best to rescue the white victims of it, while the media and Democrats hate him for it.

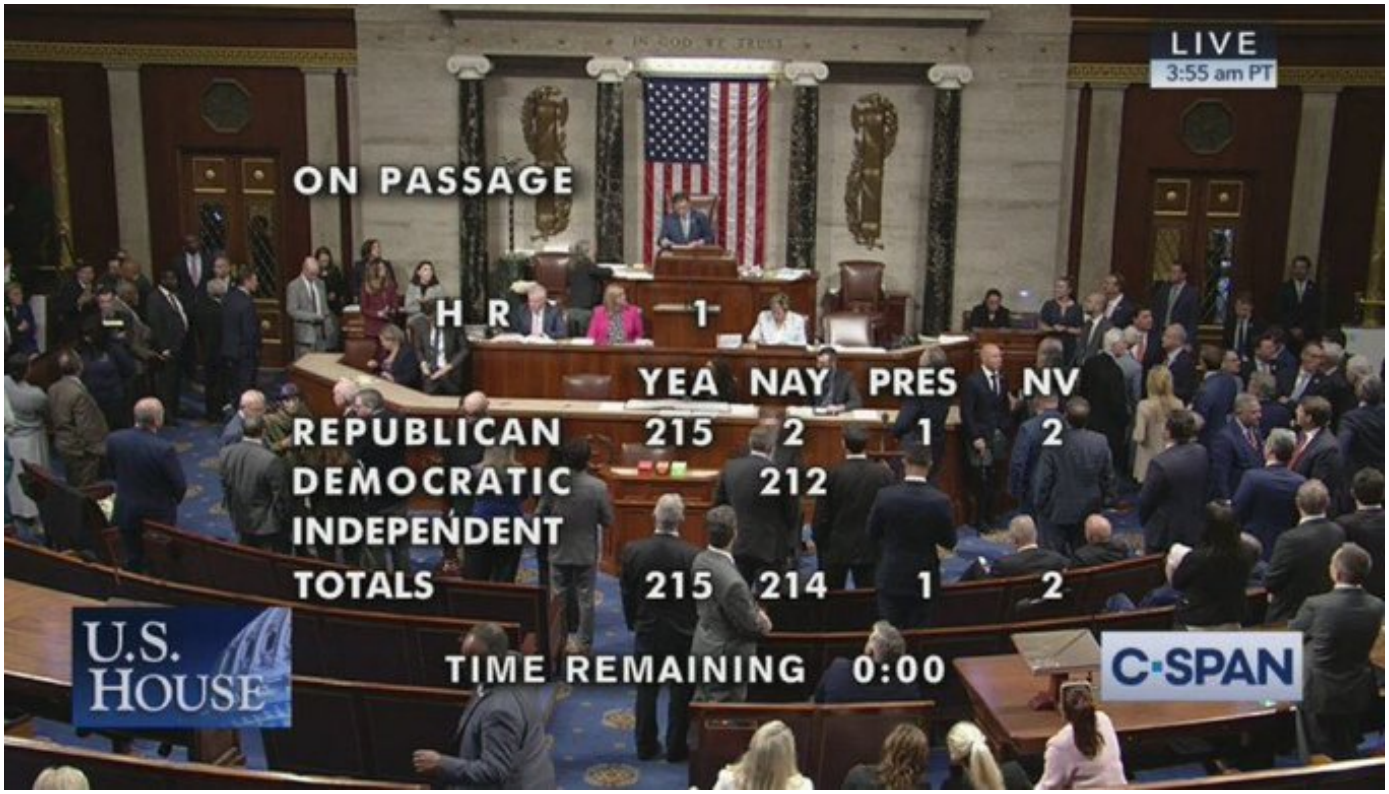
There's meganews about POTUS' Big Beautiful 1,000-page megabill since it squeaked by the House by one vote early Thursday morning (5/22).



The White House had fun celebrating with the post above. And indeed, there's $46.5B (that's billion) to finish Trump's Wall with Mexico, plus $6.1B for 3,999 new Border Patrol Agents, 5,000 new Customs officers, and 10,000 more ICE agents. There's a $1,000 fee on migrants seeking asylum (albeit canceling "asylum" as an excuse to illegally enter the US would be far better).

This part of the bill's stated goal is to remove 1 million illegal immigrants annually and house 100,000 in detention centers. It's a start!

SCOTUS – 8-1!! – played its part this week (5/19 US Supreme Court Lets Trump End Deportation Protection For Venezuelans. As End Wokeness pictured it:

POTUS described his victory thusly. You may want to read it more than once. It’s worth savoring

THE ONE, BIG, BEAUTIFUL BILL HAS PASSED THE HOUSE!

Donald J. Trump
@realDonaldTrump

"THE ONE, BIG, BEAUTIFUL BILL" has PASSED the House of Representatives! This is arguably the most significant piece of Legislation that will ever be signed in the History of our Country! The Bill includes MASSIVE Tax CUTS, No Tax on Tips, No Tax on Overtime, Tax Deductions when you purchase an American Made Vehicle, along with strong Border Security measures, Pay Raises for our ICE and Border Patrol Agents, Funding for the Golden Dome, "TRUMP Savings Accounts" for newborn babies, and much more! Great job by Speaker Mike Johnson, and the House Leadership, and thank you to every Republican who voted YES on this Historic Bill! Now, it's time for our friends in the United States Senate to get to work, and send this Bill to my desk AS SOON AS POSSIBLE! There is no time to waste. The Democrats have lost control of themselves, and are aimlessly wandering around, showing no confidence, grit, or determination. They have forgotten their landslide loss in the Presidential Election, and are warped in the past, hoping someday to revive Open Borders for the World's criminals to be able to pour into our Country, men to be able to play in women's sports, and transgender for everybody. They don't realize that these things, and so many more like them, will NEVER AGAIN happen!

We haven't been seeing much of Melania, practically since the Inauguration. Happily, looks like that's ending. The above was posted yesterday (5/22) by the White House, as was this:

> I am pleased to have had the opportunity share the progress of #BEBEST at the Senate Spouses Luncheon @NGADC. It is vital that we continue to support our youth across the nation. pic.twitter.com/fCzzLyRAM1

And this:

E Pluribus Unum: Out of Many, One

At the core of the United States Constitution are the principles of tolerance, unity, and religious freedom. Today, I urge Americans to reflect on our identity and our collective future. We must remain steadfast in our commitment to upholding the dignity of every individual.

The tragic murders of Sarah Lynn Milgrim and Yaron Lischinsky in our nation's capital serve as a stark reminder of the need for moral clarity and firm action. Let us come together in both grief and determination to confront hatred and to uphold the ideals that define our nation.

We Are One.

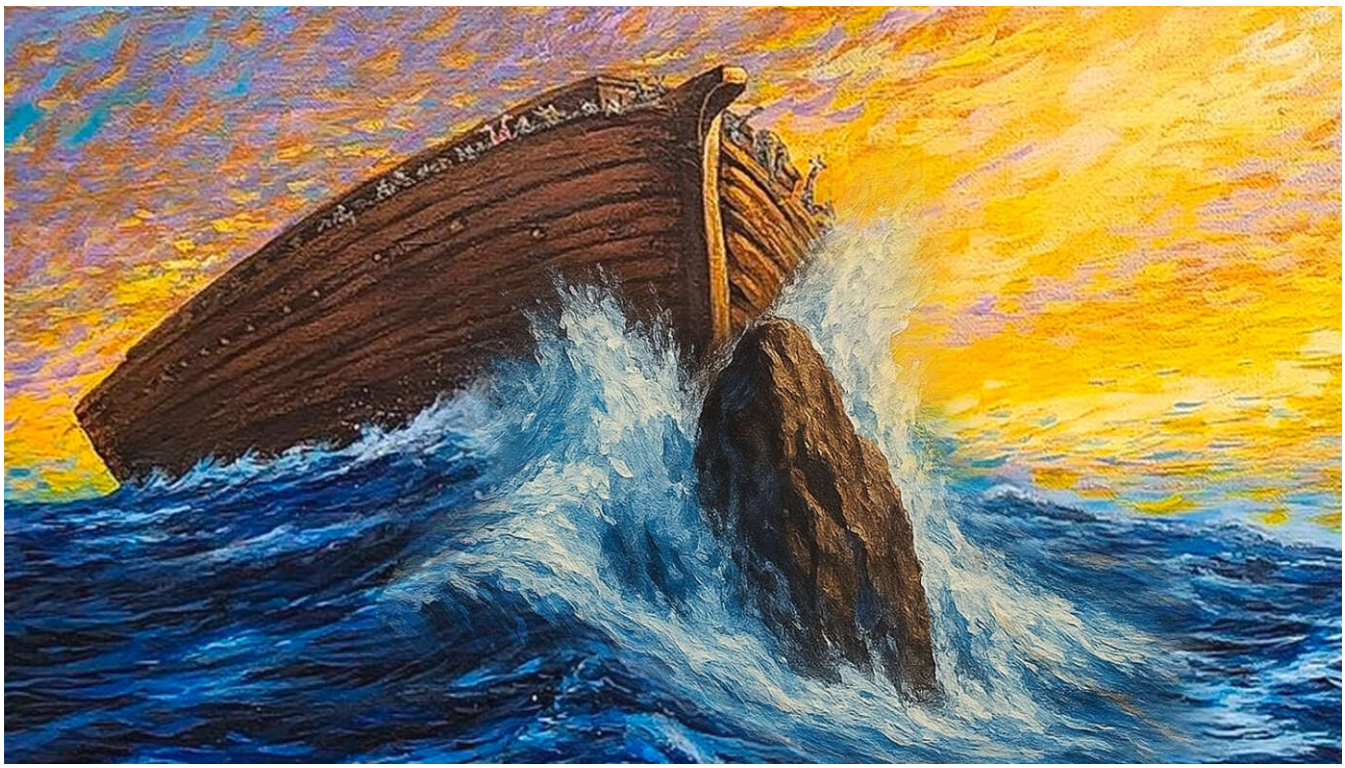
On Wednesday night (5/21), James Comey exposed himself as the Ultimate Girlie-Man, throwing *his wife* under the bus for his oh-so-“clever” call for assassination of the President of the United States. And this depraved pussy ran the FBI??

Those ace reporters at the Babylon Bee just learned that the Mormon genealogical researches have determined that Comey is descended form Noah :



When you read the full report, however, it turns out that “Noah's wife had to land the ark on the mountain intentionally, as there was a leak in the hull that Noah had been promising to fix for 3 weeks and he still hadn't gotten around to it.“ Yep, Noah was Comey’s ancestor all right.

From the ridiculous to the horrifically tragic. Sometime next month, June, Putin's war on Ukraine will have resulted in over *one million Russians dead or crippled*. Here is Russia's fate being caused by hundreds and hundreds of thousands of horrifically crippled undead in Russia now.

Time for the most astounding science news of the week (5/21, note the over 70 million views):

> The first direct observation of gravitational waves captured the merging of two black holes which emitted 36 septillion yottawatts of power (3.6×10?? watts), greater than the combined power of all light radiated by all the stars in the observable universe.

What you may find equally astounding is that the observations matched the predictions of Einstein's Theory of General Relativity, which he figured out just in his head without experimentation and 21st century telescopes – in 1915: First Observation of Gravity Waves.

That’s a wrap, folks. Rebel and I are off to lead our Exploration of Mongolia with your fellow TTPers. Ace TTPer Mike Ryan will be sharing his brilliance with you on the HFR for the next three weeks. Thanks so much, Mike!

Enjoy your Memorial Day weekend! Amidst the outdoor barbeques and fun, I’m sure you’ll remember what’s being memorialized – it’s a sacred day, a Holy Day for Americans, to honor the immense sacrifice of our Americans in Uniform in service to our country. We live in gratitude to them all.
